In this book, expert scholars share their research knowledge and key literature which are vital toward the diagnosis of plant diseases across the globe, addressing traditional plant pathology techniques as well as advanced molecular diagnostic approach.

Faith Prints Mark H. Young, 2014-02. This collection of 150 daily devotionals came into existence at Houston Methodist Willowbrook Hospital. Ideas and stories may have taken flight somewhere along the way but ultimately they were generated from the spiritual care office usually early in the mornings. What started as a monologue quickly turned into a dialogue as staff and then guests and patients began picking them up and responding, turning them into holy conversations. While some of the stories are hospital based, the vast majority came out of author Mark H. Young's life experiences illustrating that God's footprints are truly everywhere. While brief by intention to offer the reader a quick glance while on the clock, it also provides a deeper reflection about the holy and wonderful God in our midst. From outer space to the human race, there is something for anyone wanting to ponder the reality of a God who loves us.
