Circulation of Agency in E-Justice Francesco Contini,Giovan Francesco Lanzara,2013-11-19 This book contributes to an understanding of the dynamic complexities involved in the design of e justice applications that enable online trans border judicial proceedings in Europe It provides answers to critical questions with practical relevance How should online trans border judicial proceedings be designed in order to deliver effective and timely justice to European citizens businesses and public agencies How can the circulation of judicial agency across Europe be facilitated Based on extensive research the book explores and assesses the complex entanglements between law and technology and between national and European jurisdictions that emerge when developing even relatively simple e services such as those supporting the European small claims procedure and European payment orders In addition to providing a strong theoretical framework and an innovative

approach to e justice design this book includes case studies that are based on a common methodology and theoretical framework It presents original empirical material on the development of e government systems in the area of European justice Finally it introduces the design strategies of Maximum Feasible Simplicity and Maximum Manageable Complexity and based on them it proposes architectural and procedural solutions to enhance the circulation of judicial agency Emerging Trends in Technological Innovation Luis M. Camarinha-Matos,Pedro Pereira,Luis Ribeiro,2010-02-09 Identifying Emerging Trends in Technological Innovation Doctoral programs in science and engineering are important sources of innovative ideas and techniques that might lead to new products and technological innovation Certainly most PhD students are not experienced researchers and are in the process of learning how to do research Nevertheless a number of empiric studies also show that a high number of technological innovation ideas are produced in the early careers of researchers The combination of the eagerness to try new approaches and directions of young doctoral students with the experience and broad knowledge of their supervisors is likely to result in an important pool of innovation potential The DoCEIS doctoral conference on Computing Electrical and Industrial Engineering aims at creating a space for sharing and discussing ideas and results from doctoral research in these inter related areas of engineering Innovative ideas and hypotheses can be better enhanced when presented and discussed in an encouraging and open environment DoCEIS aims to provide such an environment releasing PhD students from the pressure of presenting their propositions in more formal contexts **Software Reuse in the Emerging Cloud Computing Era** Yang, Hongji,Liu, Xiaodong,2012-04-30 This book clarifies the present fast advancing literature of the current state of art and knowledge in the areas of the development and reuse of reusable assets in emerging software systems and applications Provided by publisher
