Albert Speer The End Of A Myth

Matthias Schmidt

Albert Speer The End Of A Myth:

Albert Speer: the End of a Myth Matthias Schmidt, 1982 **Albert Speer End of a Myth** Outlet, Outlet Book Company Staff, Random House Value Publishing Staff, 1986-09-20 **Denying History** Michael Shermer, Alex Grobman, 2023-11-15 Denying History takes a bold and in depth look at those who say the Holocaust never happened and explores the motivations behind such claims While most commentators have dismissed the Holocaust deniers as antisemitic neo Nazi thugs who do not deserve a response historians Michael Shermer and Alex Grobman have immersed themselves in the minds and culture of these Holocaust revisionists In the process they show how we can be certain that the Holocaust happened and for that matter how we can confirm any historical event This edition is expanded with a new chapter and epilogue examining current shockingly mainstream revisionism Denying History takes a bold and in depth look at those who say the Holocaust never happened and explores the motivations behind such claims While most commentators have dismissed the Holocaust deniers as antisemitic neo Nazi thugs who do not dese *Self-deception and Morality* Mike W. Martin, 1986 This book systematically explores the moral issues surrounding self deception While many articles and books have been written on the concept of self deception in recent years Martin s gives much greater emphasis to self deception as a significant topic for both ethical theory and applied ethics Self deception is perplexing from a moral point of view It seems tailor made to camouflage and foster immorality Does all self deception involve some guilt and is it among the most abhorrent evils as some moralists and theologians have charged Or is it only wrong sometimes such as when it has bad consequences Could it on occasion be permissible or even desirable to deceive ourselves just as we are sometimes justified in deceiving other people Are self deceivers perhaps more like innocent victims than perpetrators of deceit and as such deserving of compassion and help Or paradoxically are they best viewed with ambivalence culpable as deceivers and simultaneously innocent as victims of deception from the introduction Martin develops a conception of self deception as the purposeful evasion of acknowledging to oneself truths or one s view of truth He details a systematic framework for understanding the main moral perspectives and traditions concerning self deception that have emerged in western philosophy In so doing he clarifies related concepts like sincerity authenticity honesty hypocrisy weakness of will and self understanding Ranging across traditions both philosophical Kant Kierkegaard and Sartre and non philosophical Freud Eugene O Neill and Henrik Ibsen Martin shows why self deception is as morally complex as any other major form of behavior The appeal of this book is broad The volume will challenge professional philosophers and psychologists yet it is organized and written to be accessible to students in courses on ethics philosophy of mind and philosophy of literature Martin s numerous literary examples should also interest literary critics *The Holy Reich* Richard Steigmann-Gall, 2003-04-21 Analyzing the previously unexplored religious views of the Nazi elite Richard Steigmann Gall argues against the consensus that Nazism as a whole was either unrelated to Christianity or actively opposed to it He demonstrates that many participants

in the Nazi movement believed that the contours of their ideology were based on a Christian understanding of Germany's ills and their cure. A program usually regarded as secular in inspiration, the creation of a racist people's community embracing antisemitism, antiliberalism, and anti-Marxism was for these Nazis conceived in explicitly Christian terms. His examination centers on the concept of positive Christianity, a religion espoused by many members of the party leadership. He also explores the struggle the positive Christians waged with the party's pagans, those who rejected Christianity in toto as foreign and corrupting, and demonstrates that this was not just a conflict over religion but over the very meaning of Nazi ideology itself.

How the War Was Won Phillips Payson O'Brien, 2015-02-12. An important new history of air and sea power in World War II and its decisive role in Allied victory.

Blind Obedience and Denial Andrew Sangster, 2022-12-01. Offers a unique and valuable insight into the psychology of human beings who violate the laws of war. Anyone interested in war crimes generally and the IMT in particular should read this interesting book. Journal of Military History. A revealing yet accessible examination of the Nuremberg trial and most crucially all 23 men who stood accused, not just the most infamous: Speer, Hess, and Goering. This account sets the scene by explaining the procedures, the legal context, and the moments of hypocrisy in the Allies' prosecution, ignoring the fact that the Katyn massacre was a Soviet crime and overlooking carpet bombing. Author Andrew Sangster discusses how the word Holocaust was not used until long after the trial, probably due to Russian objection as they had lost many more people, and because the Allies generally were not innocent of anti-Semitism themselves, especially Russia and Vichy France. However, the defendants, to a person, immediately recognized that this was the singular issue which placed them on the steps of the gallows, and their various defenses on this charge are therefore crucial to understanding the trial. Sangster also explores how the prisoners related to one another in their approach to defending themselves on the charge of genocide and extermination camps, especially in facing the bully boy Goering. This new study utilizes not only the trial manuscripts but the pre-trial interrogations, the views of the psychiatrists and psychologists, and the often overheard conversations between prisoners who did not know their guards spoke German, to give the fullest exploration of the defendants' state of mind and their attitudes towards the Third Reich, Hitler, and each other as they faced judgement by the victors of the war.

Fascism through History Patrick G. Zander, 2020-10-19. While fascism perhaps reached its peak in the regimes of Hitler and Mussolini, it continues to permeate governments today. This reference work explores the history of fascism and how it has shaped daily life up to the present day. Perhaps the most notable example of fascism was Hitler's Nazi Germany. Fascists aimed to control the media and other social institutions, and Fascist views and agendas informed a wide range of daily life and popular culture. But while fascism flourished around the world in the decades before and after World War II, it continues to shape politics and government today. This reference explores the history of fascism around the world and across time, with special attention to how fascism has been more than a political philosophy but has instead played a significant role in the lives of everyday people. Volume one begins with an introduction that surveys the history of fascism.

around the world and follows with a timeline citing key events related to Fascism Roughly 180 alphabetically arranged reference entries follow These entries discuss such topics as conditions for working people conditions for women Fascist institutions that regulated daily life attitudes toward race physical culture the arts and more Primary source documents give readers first hand accounts of Fascist thought and practice A selected bibliography directs users to additional resources

Understanding the Holocaust Dan Cohn-Sherbok, 2001-01-01 What is the Holocaust Were Hitler and his executioners sadistic psychopaths Were ordinary Germans morally culpable for murdering millions of innocent victims This volume seeks to explore these and other ethical cultural and religious questions within a historical context Beginning with the origin and growth of anti Semitism the book continues with a detailed account of the various stages of Nazi onslaught and concludes with a consideration of the legacy of the Holocaust in the modern world Designed as a work for students in colleges and universities as well as the general reader the volume contains 26 chapters which deal with a particular period This is followed by discussion of the implication of the events of the Holocaust Unlike other books on the subject this study contains both a history of the Holocaust and extensive reflections about social religious and moral issues raised by the emergence of the Third Reich and its impact on subsequent history Contains maps and illustrations related to the growth and development of Nazism and a lengthy bibliography for further study

The Holocaust and the Revival of Psychological History Judith M. Hughes, 2015 Why did men and women in one of the best educated countries in the Western world set out to get rid of Jews In this book Judith M Hughes focuses on how historians efforts to grapple anew with matters of actors meanings intentions and purposes have prompted a return to psychoanalytically informed ways of thinking Hughes makes her case with fine grained analyses of books by Hugh Trevor Roper Ian Kershaw Daniel Goldhagen Saul Friedlander Christopher Browning Jan Gross Hannah Arendt and Gitta Sereny All of the authors pose psychological questions the more astute among them shed fresh light on the Holocaust without making the past any less disturbing
