

- Open the display to a 90-degree angle. Then place the computer on its side with the keyboard upright as shown.
- Support the Touch ID board as you route the Touch ID flex cable through the slot in the top case. Remove the Touch ID board from the keyboard side of the top case.

Important

- If the Touch ID board won't slide properly before removal or the Touch ID slot falls out when you remove the Touch ID board, continue to removal step 7 to replace the Touch ID slot.
- Ensure that your work surface is clean. Under the Touch ID board is the Touch ID slot, which is a small circular part. If it falls, you can more easily find it on a clean surface.
- If you're using the existing Touch ID slot, skip to reassembly step 1.

- Place the computer right side up. Spread the tips of the ESD-safe tweezers and use one tip to remove the slot from the circular recess under the Touch ID board.

Note: The slot has a small amount of adhesive and may stick to the top case.
