The Mathematics Lesson-Planning Handbook, Grades 3-5 Ruth Harbin Miles, Beth McCord Kobett, Lois A. Williams, 2018-07-13 This book brings together the best of Visible Learning and the teaching of mathematics. The chapters on learning intentions, success criteria, misconceptions, formative evaluation, and knowing thy impact are stunning. Rich in exemplars grounded in research about practice and with the right balance about the surface and deep learning in math, it's a great go-to book for all who teach mathematics.

John Hattie, Laureate Professor, Deputy Dean of MGSE, Director of the Melbourne Education Research Institute, Melbourne Graduate School of Education. YOU are the architect in the mathematics classroom. When it comes to mathematics lessons, do you sometimes feel overly beholden to the required texts from which you teach? Do you wish you could break the mold but feel like you get conflicting guidance on the right things to do? How often do you find yourself in the last-minute online scramble for a great task activity that will capture your students' interest and align to your state standards?

In *The Mathematics Lesson Planning Handbook: Grades 3-5 Your Blueprint for Building Cohesive Lessons*, you'll learn the streamlined decision-making processes that will help you plan the focused, research-based, standards-aligned lessons your students need. This daily reference offers practical guidance for when and how to pull together mathematics routines, resources, and effective teaching techniques into a coherent and manageable set of lesson plans. This resource will lead teachers through a process of lesson planning based on various learning objectives. Set the stage for lesson planning using relatable vignettes. Offer sample lesson plans for Grades 3-5. Create opportunities to reflect on each component of a mathematics lesson. Suggest next steps for building a unit from the lessons. Provide teachers the space and tools to create their own lesson plans going forward.

Based on years of classroom experience from seasoned mathematics educators, this book brings together the just-in-time resources and practical advice you need to make lesson planning simple, practical, and doable. From laying a solid foundation to choosing the right materials, you'll feel confident structuring lessons that lead to high student achievement.

How to Plan Differentiated Reading Instruction

Sharon Walpole, Michael C. McKenna, 2017-05-16 Tens of thousands of K-3 teachers have relied on this book now revised and expanded with more than 50% new material to plan and deliver effective literacy instruction tailored to each student's needs. The authors provide a detailed framework for implementing differentiated small group instruction over multiweek cycles. Each component of the beginning reading program is addressed: phonological awareness, word recognition, fluency, vocabulary, and comprehension. In a large size format for easy photocopying, the book includes dozens of reproducible lesson plans, instructional activities, assessment forms, and other tools. Purchasers get access to a webpage where they can download and print the reproducible materials. New in 2024: A free online-only Study Guide by Sharon Walpole presents commentary and discussion questions for each chapter from a science of reading perspective available for download at www.guilford.com/walpolestudyguide. New to This Edition: Differentiation 2.0: the approach has been fine-tuned based on field testing, new research findings, and current standards and response to intervention frameworks. Many additional reproducible tools such as coaching templates and the Informal Decoding Inventory. Beyond lesson plans and materials, the second edition offers more guidance for designing instruction and grouping students, making it a one-stop resource. Reproducible tools now available to download and print. An NCTQ Exemplary Text for Reading Instruction. *The Healthy Eating and Active Time Club Curriculum*. Christina Economos, Jessica Collins, Sonya Irish Hauser, Erin Hennessy, David Hudson, Erin M. Boyd Kappelhof, Sandra Klemmer, Claire Kozower, 2014-07-18 Early elementary years are perfect for instilling healthy habits in children, and *The Healthy Eating and Active Time Club Curriculum: Teaching Children to Live Well* offers you the resources and tools you need to instill those healthy habits. The text helps children understand what a healthy diet is and how to stay physically active every day. The children learn how to make healthier nutrition and activity choices and they discover how healthy eating and regular physical activity keep them feeling their best. *The Healthy Eating and Active Time Club Curriculum: Teaching Children to Live Well* comes with a web resource that contains two sections. The first section supplies many reproducibles including activity and food cards, worksheets, separate activity books for grades 1 to 3, and Cool Moves, which are warm-up and cool-down exercises for use in the classroom. This section also offers a chart that details how the curriculum meets Massachusetts state education standards, which have incorporated the common core standards in English language arts, math, comprehensive health, history and social science, arts and science, technology, and engineering. The second section of the web resource contains a detailed book called *After School HEAT Club Curriculum*. This web book reinforces the print book's material and contains lessons and activities for after-school programs that extend the classroom learning and bring that learning to life. These activities include art projects, active games, food activities including using healthy recipes, and ways to educate the entire family about healthy living. *The Healthy Eating and Active Time Club: Teaching Children to Live Well* and its accompanying resources offer an array of tools for teachers: grade-specific activity books on the web resource allowing you to print out materials that you need for each lesson. Extensions that connect the book's content to

physical education library and art Academic connections that help you incorporate the contents into comprehensive health math science and technology language arts social studies and art lessons Background information that gives you everything you need to know and teach the lessons including objectives preparation materials and key talking points A Go Green section in each lesson that helps you incorporate environmental messages into the lesson if you so choose The Healthy Eating and Active Time Club Teaching Children to Live Well is a multifaceted resource that will help you engage students with activities that teach valuable lessons and life skills Through this resource students will learn the value of increasing their consumption of fruits vegetables low fat milk and whole grains decrease their intake of foods high in saturated fat and sugar and increase their time in physical activity They will also learn how to decrease their screen time while discovering how to engage in environmentally friendly practices The Healthy Eating and Active Time Club Teaching Children to Live Well is a win win for you and your students
