concepts of sexuality to explain culturally specific psychiatric disorders to which Balinese women are prone interpreting them as expressions of frustrated desire She thus convincingly reveals Balinese society as anything but unemotional or stagnant Rather it is swept along by currents of emotionally charged desire By allowing key informants to tell their stories in their own voices and by skillfully interweaving fictionalized interludes the author gives us not only a rigorously researched ethnography but an intimate and fully realized portrait of Balinese women s innermost desires **DK Eyewitness Travel**
