International Monetary Fund. African Dept.,2013-11-22 This 2013 Article IV Consultation highlights that Sierra Leone has
made significant progress in macroeconomic stabilization over the last five years Real GDP growth averaged some 7 percent
driven by output expansion in agriculture mining and services as well as the scaling up of infrastructure investment
Nonetheless important impediments to broad based growth remain including large infrastructure gaps insufficient energy
supply and limited access to safe water and sanitation Medium term prospects are positive Growth is projected to remain
robust mainly driven by iron ore production and continued high public investment while inflation is expected to decline
