Arabs At The Crossroads Political Identity And Nationalism:

Arabs at the Crossroads Hilal Khashan, 2000 This work is brave and important Dr Khashan takes the necessary scholarly risk of saying things that are unpopular in many Arab circles Calling on the Arabs to reexamine their identity is not an easy task for a resident of Beirut Jamal R Nassar Illinois State University In this provocative study Hilal Khashan assesses Arab political experience during the 20th century He examines the rise and fall of Arab hopes for founding a territorial entity based on a unified identity focusing on important issues that contribute to the existing impasse that prevails in the Arab world These issues include the concept of Arab nationalism the seeming inability of Arab ruling elites to liberalize their societies propel economic growth and enfranchise the masses and the growth of Islamic revival movements Khashan dissects the components of the Arabs political quagmire by recognizing the nature of their identity crisis as well as its ramifications In a departure from typical academic writing he prescribes an agenda to help the Arabs deal better with the challenges of the 21st century dwelling on the need for them to respect authority reconsider their nationalistic identity define and pursue realistic objectives and commit themselves to political representation In addition his explanation of Iraq's motives when it triggered the two Gulf conflicts differs sharply from most Western accounts Khashan articulates issues that the majority of writers on Arab affairs prefer to avoid Arab intellectuals and scholars of the Middle East as well as journalists and politicians will be fascinated by this controversial book Hilal Khashan associate professor of political science at the American University of Beirut is the author of *Inside the Lebanese Confessional Mind* and *Partner or Pariah Attitudes Toward Israel in Syria Lebanon and Jordan* and has published in such journals as *Orbis Middle East Quarterly* and *Arab Studies Quarterly*

Palestinians in Jordan Luisa Gandolfo, 2012-10-23 60 per cent of Jordanians are of Palestinian origin a statistic which has propelled Jordan into the role of both player and pawn in regional issues such as the birth of the state of Israel the prolonged Israel Palestine conflict the ascent and decline of Arab nationalism and the subsequent rise of political Islam and radicalism Exploring Jordan's diverse Palestinian communities Luisa Gandolfo illustrates how the Palestinian majority has been subject to discrimination all the while also playing a defining role in shaping Jordanian politics legal frameworks and national identity The conflicts of 1948 and 1967 the civil unrest following Black September in 1972 and the uprisings of 1988 and 2000 have all contributed to a fractious Jordanian Palestinian relationship In *Palestinians in Jordan* Gandolfo examines the history of this relationship looking at the socio political circumstances the economic and domestic policies the legal status of Palestinians in Jordan and the security dimension of Jordan's role in the region She argues that policies put in place over the last century have created a society that is marked by high levels of inter faith cohesion as evidenced by the success and integration of minority Christian communities She goes on to suggest that society divides along lines of ethnic and nationalist loyalty between Jordanians and Palestinians while domestic politics become increasingly fractious with the growth of Islamist groups that have gained grassroots appeal especially in the refugee camps *Palestinians in Jordan* looks through the kaleidoscope of

Palestinian Jordanian identities that accommodate a complex and overlapping web of different religious affiliations mixed socio economic conditions and the experience of exile reconciled with daily life in Jordan At the same time identities of these communities continue to be rooted in an attachment to the concept of Palestine and the unifying force of the struggle against Zionism These layers have made the versatile and fluid nature of identities essential affording a fascinating study in inter communal dynamics and nationalism It is this which makes Palestinians in Jordan an important resource for those researching the Israel Palestine conflict as well as for students of the Middle East Politics Anthropology and Gender with an interest in identity

Encyclopedia of the Developing World Thomas M. Leonard, 2013-10-18 A RUSA 2007 Outstanding Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries Containing more than 750 entries the Encyclopedia encompasses primarily the years since 1945 and defines development broadly addressing not only economics but also civil society and social progress Entries cover the most important theories and measurements of development relate historical events movements and concepts to development both internationally and regionally where applicable examine the contributions of the most important persons and organizations and detail the progress made within geographic regions and by individual countries

The Great Betrayal Fawaz A. Gerges, 2025-04-29 A history of the political instability in the Middle East driven largely by great power conflict and predictions for the future of the region The Sykes Picot Agreement of 1916 divided the Middle East into states with unnatural boundaries drawn by colonial powers with short term interests and no consideration for the people or future of the region The century that followed saw bad governance systemic corruption geopolitical rivalries and endless foreign intervention and meddling effectively redrawing borders by force While there is no singular cause for instability in the Middle East Gerges s analysis explains the origins of numerous past and ongoing conflicts to draw conclusions about where the region is heading using the past to predict the future of Arab politics religion and life The Hundred Years War for the Middle East introduces Gerges s new Middle East shaped by the changes and discontinuity of present day He presents five major predictions for the next century state collapse and the emergence of new states the present state system enduring with minor alteration durability of political authoritarianism a new social contract based on constitutional arrangements and a combination of both constitutionalism and political authoritarianism From the Sykes Picot Agreement to the rise of ISIS our modern understanding of the key actors non state organizations like Al Qaeda and ISIS and dominant forces allows us to examine how changing relationships and rising tensions will shape the next century

Egypt and the Politics of Change in the Arab Middle East Robert Bowker, 2010-01-01 The situation unfolding in Egypt and elsewhere in the Arab Middle East has important implications for the future of the Arab political order For the first time a secular but inclusive political alternative to Islamism has emerged It has captured the political imagination of the emerging Arab middle class It will shape the regional security environment Its consequences are unpredictable but the greatest risk to the region is the marginalization

and alienation of a movement that has raised and galvanized its political horizons Robert Bowker In his book *Egypt and the Politics of Change in the Arab Middle East* Professor Robert Bowker argues that if regimes fail to address effectively the demands for empowerment of its educated youth they face the prospect of a tsunami like current of instability and regression Ambassador Bowker's new book achieves the challenging objective of making a contribution to scholarship on Egypt and the Arab world while being accessible to a general audience He addresses the key drivers of change such as globalization and Islamicization and the entrenched attitudes behavior and institutions they confront Drawing upon an impressive array of empirical information case studies and first hand observations he both illustrates and assesses the contending forces and the likely outcomes of their confrontations Robert Springborg Naval Postgraduate School Monterey US This book is certain to be a valued and respected addition to the literature on the eve of a potentially transformational moment in Egyptian history and thus possibly for the Arab world as well Jerrold D Green Pacific Council on International Policy Los Angeles US In this illuminating and informed book Robert Bowker tackles the prospects for change in the contemporary Arab world He persuasively argues that while long term demographic educational and social transformations pose formidable challenges for the future the important issues of political reform Islamism and regional security are contestable The message that this book so engagingly conveys is that change is both inevitable and not necessarily to be feared It is a refreshingly constructive and timely reminder for all who would see the new Middle East as destined to be volatile and precarious James Piscatori Durham University UK Dr Bowker's study provides the best encapsulation and explanation of changes in the Arab world's social and economic landscape in an age of faster and deeper interdependence Measured and sober in its analysis and challenging in its conclusions it should be read by all those who want to have a better understanding of the Middle East in general and Egypt in particular Amin Saikal The Australian National University *Egypt and the Politics of Change in the Arab Middle East* is a forward looking analysis of the relationship between economic and political reform in Egypt and of the evolving nature of Arab society and political culture both in Egypt and elsewhere Writing from the perspective of a recently retired ambassador with extensive Arab regional experience Robert Bowker discusses the potential impact of systemic resistance to pressures for greater transparency accountability and political reform amid ongoing demographic educational and generational changes His analysis encompasses the military and security services the influence of the shadow state and the impact of social surveillance coercion and corruption Looking ahead he discusses emerging business models returning Arab expatriates the gradual empowerment of women and the impact of Islam He considers the political sustainability of economic reform including the challenges facing marginalized groups His analysis concludes by reviewing the regional security and political context of reform the importance of political leadership over the coming decade and the role of external parties Compelling insightful and thought provoking the book provides *The 1967 Arab-Israeli War* Wm Roger Louis, Avi Shlaim, 2012-02-13 The June 1967 war was a watershed in the history of the modern Middle East In six days the Israelis defeated the Egyptian Syrian

and Jordanian armies seizing large portions of their territories Two veteran scholars of the Middle East bring together some of the most knowledgeable experts in their fields to reassess the origins and the legacies of the war Each chapter takes a different perspective from the vantage point of a different participant those that actually took part in the war and also the world powers that played important roles behind the scenes Their conclusions make for sober reading At the heart of the story was the incompetence of the Egyptian leadership and the rivalry between various Arab players who were deeply suspicious of each other's motives Israel on the other side gained a resounding victory for which despite previous assessments to the contrary there was no master plan

International History of the Twentieth Century and Beyond

Antony Best, Jussi Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2014-12-17 This hugely successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the past one hundred years The third edition is thoroughly updated throughout to take account of the most recent research and global developments and includes a new chapter on the international history of human rights and its advocacy organizations including NGOs Additional new features include New material on the Arab Spring including specific focus on Libya and Syria Increased debate on the question of US decline and the rise of China A timeline to give increased context to those studying the topic for the first time A fully revised companion website including links to further resources and self testing material can be found at www.routledge.com/cw/best Antony Best is Associate Professor in International History at the London School of Economics Jussi M Hanhimäki is Professor of International History and Politics at the Graduate Institute of International Studies Geneva Joseph A Maiolo is Professor of International History at the Department of War Studies Kings College London Kirsten E Schulze is Associate Professor in International History at the London School of Economics

Fratricide in the Holy Land Avner Falk, 2005-02-17 This is the first English language book ever to apply psychoanalytic knowledge to the understanding of the most intractable international struggle in our world today the Arab Israeli conflict Two ethnic groups fight over a single territory that both consider to be theirs by historical right essentially a rational matter But close historical examination shows that the two parties to this tragic conflict have missed innumerable opportunities for a rational partition of the territory between them and for a permanent state of peace and prosperity rather than perennial bloodshed and misery Falk suggests that a way to understand and explain such irrational matters is to examine the unconscious aspects of the conflict He examines large group psychology nationalism group narcissism psychogeography the Arab and Israeli minds and suicidal terrorism and he offers psychobiographical studies of Ariel Sharon and Yasser Arafat two key players in this tragic conflict today

Making the

Arab World Fawaz A. Gerges, 2018-04-03 How the conflict between political Islamists and secular leaning nationalists has shaped the history of the modern Middle East In 2013 just two years after the popular overthrow of Hosni Mubarak the Egyptian military ousted the country's first democratically elected president Mohamed Morsi of the Muslim Brotherhood and subsequently led a brutal repression of the Islamist group These bloody events echoed an older political rift in Egypt and the Middle East the splitting of nationalists and Islamists during the rule of Egyptian president and Arab nationalist leader Gamal Abdel Nasser In Making the Arab World Fawaz Gerges one of the world's leading authorities on the Middle East tells how the clash between pan Arab nationalism and pan Islamism has shaped the history of the region from the 1920s to the present Gerges tells this story through an unprecedented dual biography of Nasser and another of the twentieth century Arab world's most influential figures Sayyid Qutb a leading member of the Muslim Brotherhood and the father of many branches of radical political Islam Their deeply intertwined lives embody and dramatize the divide between Arabism and Islamism Yet as Gerges shows beyond the ideological and existential rhetoric this is a struggle over the state its role and its power Based on a decade of research including in depth interviews with many leading figures in the story Making the Arab World is essential reading for anyone who wants to understand the roots of the turmoil engulfing the Middle East from civil wars to the rise of Al Qaeda and ISIS

At the Heart of Terror Monte Palmer, Princess Palmer, 2004 This accessible and deeply informed book examines the threat that Muslim extremists pose to America and suggests steps that will facilitate U S efforts to defeat them
