Beyond Sacred Violence A Comparative Study Of Sacrifice:

Beyond Sacred Violence Kathryn McClymond, 2008-07-02 This award winning study presents a thought provoking examination of sacrifice that significantly extends our understanding of the practice James Getz Journal of Religion For many Westerners the term sacrifice suggests ancient and primitive ritual practices It conjures the notion of slaying an animal victim usually with the aim of atoning for human guilt In *Beyond Sacred Violence* Kathryn McClymond argues that this reductive understanding of sacrifice overlooks an enormously broad and dynamic cluster of religious activities Drawing on a comparative study of Vedic and Jewish sacrificial practices McClymond demonstrates that sacrifice has no single essential identifying characteristic She also shows that the elements most frequently attributed to such acts death and violence are not universal In fact the world of religious sacrifice varies greatly including grain based offerings precious liquids and complex interdependent activities Winner 2009 Georgia Author of the Year Award for Creative Nonfiction [The Palgrave Handbook](#)

[of Anthropological Ritual Studies](#) Pamela J. Stewart, Andrew J. Strathern, 2021-08-24 Ritual Studies have achieved prominence since the 1980s when interest in ritual as an object of inquiry was established bridging over a number of humanities and social science disciplines Both connected with religious studies and independent of it overlapping with social and cultural anthropology but also with history related to science and health practices and ranging across the life course to education Ritual Studies has come to encompass studies of change and dynamism in social life Rituals are determinate in form but not static They enunciate distinctive social values within specific contexts that frame them and they relate to the wider concerns and issues of their practitioners Due to this broad and wide ranging scope it is often difficult to find a single resource on Ritual Studies and even more so to find one which moves beyond the beginnings of anthropological theorizing to grapple with the present day contexts of ritual Bringing together recent ethnographies of ritual practice and ritualization from across the globe this Handbook provides case study of ritual in the light of Emotion and Cognition Identity Religious Power Performance and Literature Ecology and Ecological Disaster Media and other topics While each chapter provides a deep ethnography of a specific society ritual or ritualized practice each also engages with current theoretical and substantive approaches to the relevant topic The scholars collected here provide original synoptic and indicative pieces as guideposts and pathways through the complex varied and cross disciplinary and vast landscape of scholarship that constitutes Ritual Studies today and points to developments in the future **Writing a Commentary on Leviticus** Christian A.

Eberhart, Thomas Hieke, 2019-04-15 Writing a commentary on a biblical book is not limited to the scholar's study and desk Hence several experts in the field of Hebrew Bible currently writing a larger commentary on the book of Leviticus followed the invitation of Christian Eberhart and Thomas Hieke to meet between 2014 and 2016 at the Annual SBL Conference They shared their experiences discussed hermeneutical and methodological considerations and presented their ideas about particular themes and issues in the third book of the Torah The results of these consultative panels had significant impact on

the production of the commentaries The first part of this volume features essays reflecting on the process of writing a Leviticus commentary including boosts and obstacles while suggesting innovative insights on particular problems of the book The second part identifies certain themes of Leviticus especially sacrifices and rituals the cult the notion of unintentional and deliberate sins and purity impurity the bad and how to eliminate them and the relationship to the sphere of God the holy This section demonstrates how commenting a biblical book highly depends on the perspective a scholar takes and how different commentaries on the same biblical text come to different conclusions because of a diversity of methodological and hermeneutical approaches These are issues innate in the subject matter in the end the variety of approaches bears witness to the complexity intricacy and richness of the biblical text This volume therefore offers a fascinating inside view into the studies and onto the desks of several prolific biblical experts who share their reflections and concepts about their commentaries on Leviticus with an interested audience

The Oxford Handbook of Early Christian Ritual Risto Uro, Juliette Day, Rikard Roitto, Richard E. DeMaris, 2019 The Handbook provides an indispensable account of the ritual world of early Christianity from the beginning of the movement up to the end of the sixth century

The Ashgate Research Companion to Anthropology Andrew J. Strathern, 2016-03-03 This companion provides an indispensable overview of contemporary and classical issues in social and cultural anthropology Although anthropology has expanded greatly over time in terms of the diversity of topics in which its practitioners engage many of the broad themes and topics at the heart of anthropological thought remain perennially vital such as understanding order and change diversity and continuity and conflict and co operation in the reproduction of social life Bringing together leading scholars in the field the contributors to this volume provide us with thoughtful and fruitful ways of thinking about a number of contemporary and long standing arenas of work where both established and more recent researchers are engaged The companion begins by exploring classic topics such as Religion Rituals Language and Culture Violence and Gender This is followed by a focus on current developments within the discipline including Human Rights Globalization and Diasporas and Cosmopolitanism It provides an interesting and challenging look at the state of current thinking in anthropology serving as a rich resource for scholars and students alike

Considering Comparison Oliver Freiberger, 2019-01-02 The comparative method is an integral part of religious studies but has been subject to criticism however including postcolonialist and postmodernist critiques Freiberger proposes a model of comparison called discourse comparison that is based on a thorough epistemological analysis and takes both the scholar's situatedness and personal agency seriously

Atonement and the Logic of Resurrection in the Epistle to the Hebrews David M. Moffitt, 2011-07-27 Scholars often explain Hebrews' relative silence regarding Jesus' resurrection by emphasizing the author's appeal to Yom Kippur's two key moments the sacrificial slaughter and the high priest's presentation of blood in the holy of holies in his distinctive portrayal of Jesus' death and heavenly exaltation The writer's depiction of Jesus as the high priest whose blood effected ultimate atonement appears to be modeled upon these two

moments Such a typology discourages discrete reflection on Jesus resurrection Drawing on contemporary studies of Jewish sacrifice which note that blood represents life not death parallels in Jewish apocalyptic literature and fresh exegetical insights this volume demonstrates that Jesus embodied resurrected life is crucial for the high priestly Christology and sacrificial soteriology developed in Hebrews **Dharma and Halacha** Ithamar Theodor, Yudit Kornberg

Jefferson, 2022-08-16 Death and rebirth was of vital

Clough, 2013-08-15 This book examines one of the most pressing cultural concerns that surfaced in the last decade the question of the place and significance of the animal This collection of essays

represents the outcome of various conversations regarding the animal studies and shows multidisciplinary at its very best namely a rigorous approach within one discipline in conversation with others around a common theme The contributors discuss the most relevant disciplines regarding this conversation namely philosophy anthropology religious studies theology history of religions archaeology and cultural studies The first section Thinking about Animals explores philosophical anthropological and religious perspectives raising general questions about the human perception of animals and its crucial cultural significance The second section explores the intriguing topic of the way animals have been used historically as religious symbols and in religious rituals The third section re examines some Christian theological and biblical approaches to animals in the light of current concerns The final section extends the implications of traditional views about other animals to more specific ethical theories and practices
