Beyond Pleasure And Pain How Motivation Works:

Beyond Pleasure and Pain E. Tory Higgins, 2012 Rather they work together **Beyond Pleasure and Pain** Edward Tory Higgins, 2012 How does motivation work Scientific research shows that people are motivated by more than the pursuit of pleasure and the avoidance of pain Higgins argues that people are motivated by the pursuit of value truth and control but the central story to motivation lies in how these elements work together Shared Reality Edward Tory Higgins, 2019 What does it mean to be human The classic answer is that we have a special kind of intelligence But to understand what we are as humans we also need to know what we are like motivationally In this work Dr Higgins describes how our human motivation for shared reality evolved in our species and how it develops in our children as shared feelings shared practices and shared goals and roles taken from book jacket **Scientists Making a Difference** Robert J. Sternberg, Susan T. Fiske, Donald J. Foss, 2016-08-15 This book presents the most important contributions to modern psychological science and explains how the contributions came to be **Motivation** , 2016-10-28 Motivation Theory Neurobiology and Applications is inspired by a question central to health care professionals teachers parents and coaches alike How can an individual be motivated to perform a given activity or training It presents novel measurements of motivation developed in psychology and economics recent insights into the neurobiology of motivation and current research on applications designed to boost motivation in neurorehabilitation education and sports In addition tactics on how to connect these different research and knowledge fields within a common theoretical framework of motivation is discussed Thus in short the book provides an integrative interdisciplinary up to date accounting on the neurobiology of motivation and how it might be boosted Provides an integration of the neurosciences their clinical challenges and applicable research Includes both an interdisciplinary and integrative nature Contains a broad array of subject matter that will be of interest to a large target audience Presents contributions from experts in their respective fields **Mapping Motivation** James Sale, 2017-05-15 Ever wondered what motivation is and why organizations do not and cannot until now measure it James Sale tackles the question of what motivation is why we need it and what happens when we don't have it He defines and measures motivation from an individual team and most critically organizational or workplace point of view and he introduces the reader to the core concepts of how it relates to fundamental issues such as performance and productivity and its role in a number of key management functions team building performance appraisal leadership development engagement and change management Motivation is a core aspect of all people development initiatives and programmes if we wish them to succeed Based on over ten years of research into motivation and performance James created Motivational Maps the first and only accurate diagnostic tool that describes measures monitors and maximizes motivation and performance through an easy simple to use online questionnaire that takes only 10 minutes to complete and which readers have access to Mapping Motivation therefore is the definitive book on motivation its language and metrics written by its creator are full of knowledge insight and practical tips this will appeal to
