Ross, 2010-08-31 Today's busier faster society is waging an undeclared war on childhood With too much stuff

Sadhu,2025-06-02 Today children are entering a world that values speed and efficiency above all else the opposite of what they need to become human beings Our materialist hi tech culture fails to support children through their primary task in the first seven years forming the physical body Instead it creates little adults who are prematurely intellectualized uneasy in their bodies and ill prepared to become physically strong emotionally resilient freethinking individuals To bridge the gap this book Educates parents about the consciousness of a young child who lovingly absorbs all impressions from the environment to develop as a physical being Alerts parents to intense impressions such as screen use academic learning and adultification bias that are hard for children to assimilate Awakens parents to understand difficult behaviours as manifestations of undigested impressions and Empowers parents to create a healthy rhythm of growth by preventing intense inbreaths as well as balancing these with outbreaths such as time in nature free play chores and plentiful rest Rhythmic Parenting reclaims children s right to fulfil their highest human potential and places parents at the forefront of this mission **Nature and the Human Soul** Bill Plotkin,2010-10-04 Addressing the pervasive longing for meaning and fulfillment in this time of crisis

Nature and the Human Soul introduces a visionary ecopsychology of human development that reveals how fully and creatively we can mature when soul and wild nature guide us Depth psychologist and wilderness guide Bill Plotkin presents a model for a human life span rooted in the cycles and qualities of the natural world a blueprint for individual development that ultimately yields a strategy for cultural transformation If it is true as Plotkin and others observe that we live in a culture dominated by adolescent habits and desires then the enduring societal changes we so desperately need won t happen until we individually and collectively evolve into an engaged authentic adulthood With evocative language and personal stories including those of elders Thomas Berry and Joanna Macy this book defines eight stages of human life Innocent Explorer Thespian Wanderer Soul Apprentice Artisan Master and Sage and describes the challenges and benefits of each Plotkin offers a way of progressing from our current egocentric aggressively competitive consumer society to an ecocentric soul based one that is sustainable cooperative and compassionate At once a primer on human development and a manifesto for change Nature and the Human Soul fashions a template for a more mature fulfilling and purposeful life and a better world

Well Balanced Child Sally,2014-10-10 The Well Balanced Child is a passionate manifesto for a e whole bodye approach to learning which integrates the brain senses movement and play This fully revised edition includes a new chapter with a story and movement exercise that parents can use to help children reach their potential
