social cultural and material dimensions the book explores the concept across a range of contexts including former Communist countries and those in the so called Global North Contributions also explore understandings of informality at various scalar levels region precinct neighbourhood and individual building Thus this work helps reposition informality as a relational concept at various scales of urbanisation This book will be of great benefit to planners architects researchers and policymakers interested in the interplay between informality and sustainability *Confronting the Crisis in Urban Poverty*

Lucy Stevens, Stuart Coupe, Diana Mitlin, 2006 This book makes a case for approaches to urban development that are locally driven and which complement the vast investments and efforts of slum dwellers themselves It discusses a range of approaches for achieving that focusing on practical experiences and clear lessons for the future **Climate Resilient**

Urban Areas Rutger de Graaf-van Dinther, 2020-12-17 This book describes the urgent challenge faced by cities worldwide to become resilient to climate change impacts This challenge goes further than the ability to resist the impacts of extreme weather conditions Coping with climate impacts and the ability to recover from them are equally important as well as the capacity to adapt to the effects of climate change and the ability to transform the entire urban system The book explores how the resilience journey for coastal cities in particular encompasses using scientific knowledge but also the knowledge of citizens and practitioners Measures and strategies on different scales are needed from national scale all the way down to neighbourhood street level and building level Representing the holistic nature of climate resilience this collection contains unique insights from leading scientists and practitioners in areas of expertise such as engineering social sciences and urban design It will be a valuable resource for scholars students practitioners and policy makers interested in the development of resilient and sustainable urban environments The Urban Housing Manual Geoffrey Payne, Michael Majale, 2012-04-27
