Betrayed By His Past:

The Presence of the Past Valerie Krips, 2002-09-11 The presence of the Past studies the interaction of heritage and fiction written for children over a 40 year period in Britain exploring a range of works for children from The Tale of Peter Rabbit to I Spy

Relics of the Past Stefanie Gänger, 2014-05 Relics of the Past tells the story of antiquities collecting antiquarianism and archaeology in Cuzco and Lima over the Araucanian territories and the War of the Pacific in the second half of the nineteenth and the early twentieth century While the role of foreign travellers and scholars dedicated to the study of South America's pre-Columbian past is well documented historians have largely overlooked the knowledge gathered and the collections formed among collectors of antiquities antiquaries and archaeologists born or living in South America during this period The landed gentry the clergy and an urban bourgeoisie of doctors engineers and military officials put antiquities on display in their private mansions or bestowed them upon the public museums that were being formed by municipalities and governments in Santiago de Chile Cuzco or Lima Men and some few women gathered antiquities on their journeys inland and during sociable weekend excursions but also on quotidian commercial voyages or in military campaigns They bartered antiquities with their fellow collectors or haggled about their price on the antiquities market In their hours of leisure they marvelled at them wrote about them and disputed over their meaning age and interest in learned societies informal gatherings and at meetings in universities and public museums This volume unveils a hitherto largely unknown world of antiquarian and archaeological collecting and learning in Peru and Chile

In Defense of Lost Causes Slavoj Žižek, 2009-10-19 The renowned philosophical sharpshooter looks for the kernel of truth in the fascist politics of the past offering an adrenaline fueled manifesto for universal values Is global emancipation a lost cause Are universal values outdated relics of an earlier age In fear of the horrors of totalitarianism should we submit ourselves to a miserable third way of economic liberalism and government as administration In this combative major work philosophical sharpshooter Slavoj Žižek takes on the reigning ideology with a plea that we should reappropriate several lost causes and look for the kernel of truth in the totalitarian politics of the past Examining Heidegger's seduction by fascism and Foucault's flirtation with the Iranian Revolution he suggests that these were the right steps in the wrong direction He argues that while the revolutionary terror of Robespierre Mao and the Bolsheviks ended in historic failure and monstrosity this is not the whole story There is in fact a redemptive moment that gets lost in the outright liberal democratic rejection of revolutionary authoritarianism and the valorization of soft consensual decentralized politics Žižek claims that particularly in light of the forthcoming ecological crisis we should reinvent revolutionary terror and the dictatorship of the proletariat in the struggle for universal emancipation We need to courageously accept the return to this Cause even if we court the risk of a catastrophic disaster In the words of Samuel Beckett Try again Fail again Fail better
