Ken Osterman

Betting Maidens And 2 Year Olds Analytical Approach To Future Winners Elements Of Handicapping:

Betting Maidens and 2-Year-Olds Dan Illman, 2005 This book is an informative account on profitable ways to handicap juvenile and maiden races through sire and trainer profiles breeding and workout information First of its kind to thoroughly cover baby races juvenile horses and older maidens *Betting Maidens & 2-year-olds : \$b Analytical Approach to Future Winners* Dan Illman, 2005 *"The" Illustrated London News*, 1867 **Valuable Systems, Angles and Spot Plays to Beat the Quarter Horse Races** Ken Osterman, 2021-03-23 Quarter Horse racing may seem difficult to handicap especially for those who are accustomed to thoroughbred handicapping but in this book by Las Vegas based handicapper Ken Osterman the difficulty melts away Inside this book are a variety of approaches to quarter horse handicapping systems angles and spot plays that are both clever and innovative The rules of the handicapping angles in this book are clearly explained and easy to use Included in this book are An in depth approach to handicapping maiden claiming races The best way to compute class for two and three year old races A unique class rating for older horses that are uses with several of these angles A parallel time chart to aid in comparing final times at different distances Most of these systems are for picking winners on the straightaway but there are two separate systems for 870 yard races one for winners and one for maiden races All you need to use this book are the past performances and with a few of these angles perhaps a simple calculator These angles have been shown to be effective at all of the major quarter horse tracks in the United States *Picking Winners* Andrew Beyer, 1994 A systematic approach to successful race horse handicapping for novices and old timers presenting advice on reading the race forms judging tracks and trainers the horses appearances speed handicapping and money management **The Most Powerful System Ever Devised for Thoroughbred Race Betting Plus 18 Spot Play Angles** Ken Osterman, 2021-09-06 In this book by sports and horse racing handicapper Ken Osterman he focuses exclusively on thoroughbred handicapping and has put down in writing the one system he uses at race books throughout Las Vegas Nevada He has given this method the audacious title of The Most Powerful System Ever Devised for Thoroughbred Race Betting In many ways it is the most powerful method because it is based upon solid mathematics and statistics It can also be applied at any track at any distance for winning horses three year old and upward carded at any track in the United States or Canada This method can be used as a handicapping system all by itself but what makes it even more attractive as a handicapping method is that it fits with other methods You can use this method first and then apply your favorite handicapping approach to the remainder of the field Alternatively you can do the opposite and start with your handicapping approach After finding what you believe to be the winner of the race you can then apply this method to your choice This will give your selection greater validity and strength or it may give you a reality check by pointing out the weakness of your choice Along with the title method there are a wide range of spot plays angles in this book covering claiming races sprints speed turf maiden races two year old races long shot methods beaten favorites and other categories The following are the titles for each spot play in the book The New Low

Claiming Price Angle The B6 Sprint System for Thoroughbreds Bet the Fastest Horse The Route Speed Method Class on the Turf Three Strikes and You're Out A Maiden Claiming Route Angle First Time Maiden Claiming The Speed and Earnings Method Best Jockey Two Race Declines A Beaten Favorite System Twice Beaten Favorites The Previous Odds Angle The Sleeper Horse The 4 1 2 Furlong Race System Tote Board Magic Tote Board Magic II Betting Favorites Using the Modified d Alembert Betting Method **Bet to Win!** Bobby Zen,2007-09 This is an instruction manual to finding winners at the races including worksheets Back cover **Smart Handicapping Made Easy** William Bauman,1974 *Winners at Prices* Robert Saunders Dowst,1947 **The Logical Choice** G. Cohail,2013-04-29 The Logical Choice is a great piece of work Well done Ed Watts If the challenge of picking the winner in every race is what motivates you when it comes to horse racing this book is not directed at you though there are insights within its pages that may help you with your endeavors The sections on Beyer Speed Figures track variants how to calculate more accurate running times and how to find 59% winners and still lose money are more than worth the price of this book However if your interest is in making money while betting on horse races you need to face facts Playing favorites is financial ruin in the making yet most people 72 7% in 2010 end up wagering on the three horses with the lowest odds in race after race Unfortunately you cannot make long term profits betting on such horses You need to find horses that pay you 16 60 27 40 18 80 etc what the author calls Value Plays if you want to make money This book will show you how he manages to do so Professional handicapper G W Cohail has handicapped horse races for over fifty years In the pages of this book he challenges many aspects of traditional handicapping others take for granted and often swear by including the revered Beyer Speed Figures par times daily track variants etc He then demonstrates how he successfully bets on horse races with making money not picking winners as his primary goal Mr Cohail spent decades handicapping races in a traditional way always looking to zero in on the winner He considered himself a top notch handicapper and he averaged 38% winners two years in a row Yet he never made a lot of money from his handicapping skills Luckily he never lost the rent money either Then one day while watching the tote board his life changed forever Is it possible to wager on horse races and win The Logical Choice Tote Board Handicapping Made Easy provides insights into wagering for profit The concepts presented in this work are usable by anyone whether they be an experienced handicapper or a budding novice In many respects not knowing how to handicap races makes you a better candidate as the less you think you know about handicapping the less you will have to unlearn
