Between Now and When Richard House,2015-05-18 Between Now and When relates a transcendent journey from earthly suffering and addiction into the rarely glimpsed supra reality of higher dimensions The author first experienced the oneness of existence at age seven As a teen he heard a mystical voice that foretold his death at age 33 a prophecy that left him on death s doorstep at exactly that age His surrender complete he was propelled into the fourth dimension where his body was miraculously healed Thus began a redemptive and transformational journey of discovery as Dr House was led by the hand and heart on a magical journey around the world Hawaii Fiji Australia India London and eventually New York City Dr House describes the wonders he encountered along the way as his expanding consciousness revealed the metaphysical underpinnings of the visible world and why we are in it Between Now and When will Take you on a metaphysical journey around the world Open your eyes to the energetic grid that organizes earthly life Help you understand human suffering and why it is an important part of God s life on earth Open your heart to the unlimited power of divine and human love

Between Now and When Richard House,2015-09-15 This true story relates the post addiction experiences of the author as he is led on a mystical journey around the world He describes his amazing discovery of higher dimensions seldom experienced on earth as well as the metaphysical underpinnings of the universe itself His experiences began at a young age and continued all through his life even as he became a successful surgeon and family man It is an amazing unfolding story as he takes the reader along with him each step of the way

Getting Older Robert Bailor,2020-09-14 Is getting older to be feared or embraced Is it merely a matter of deterioration and death or is it a platform for a new lifestyle with new opportunities and new joys This is a story about getting older The main character Don a 73 year old retired widower is initially confused and depressed about getting older The book takes him through the fears the challenges and the merits of being a senior citizen It does so on three levels of narrative First there is the primary story of Don s sharing in one on one counseling to help him resolve his issues with aging The Epilogue is a surprise conclusion to this counseling journey Second there is the presentation of Don s own internal dialogue regarding getting older with his inner reflections combined with his counseling journal entries Third there are five short stories spread out over the journal entries which emphasize the truths that Don is trying to get at with his journal entries There have been several notable books written about aging its causes and its challenges Yet there has never been a book like this one Through the art of fiction it gets to the core of the questions haunting the prospects of getting older in a way that readers can personally identify with and use to resolve their own issues with aging If readers follow the intertwining stories perhaps they will discover answers for themselves at least that is the intention of this book

Mortality, Immortality and Other Life Strategies Zygmunt Bauman, 2013-05-08 Zygmunt Bauman's new book is a brilliant exploration from a sociological point of view of the taboo subject in modern societies death and dying The book develops a new theory of the ways in which human mortality is reacted to and dealt with in social institutions and culture The hypothesis explored in the book is that the necessity of human beings to live with the constant awareness of death accounts for crucial aspects of the social organization of all known societies Two different life strategies are distinguished in respect of

reactions to mortality One the modern strategy deconstructs mortality by translating the insoluble issue of death into many specific problems of health and disease which are soluble in principle The post modern strategy is one of deconstructing immortality life is transformed into a constant rehearsal of reversible death a substitution of temporary disappearance for the irrevocable termination of life This profound and provocative book will appeal to a wide audience It will also be of particular interest to students and professionals in the areas of sociology anthropology theology and philosophy **What Makes Life**

Worth Living? Gordon Mathews,1996-04-05 Here is an original and provocative anthropological approach to the fundamental philosophical question of what makes life worth living Gordon Mathews considers this perennial issue by examining nine pairs of similarly situated individuals in the United States and Japan In the course of exploring how people from these two cultures find meaning in their daily lives he illuminates a vast and intriguing range of ideas about work and love religion creativity and self realization Mathews explores these topics by means of the Japanese term *ikigai* that which most makes one's life seem worth living American English has no equivalent but *ikigai* applies not only to Japanese lives but to American lives as well *Ikigai* is what day after day and year after year each of us most essentially lives for Through the life stories of those he interviews Mathews analyzes the ways Japanese and American lives have been affected by social roles and cultural vocabularies As we approach the end of the century the author's investigation into how the inhabitants of the world's two largest economic superpowers make sense of their lives brings a vital new understanding to our skeptical age **The**
