Between Sundays Black Women And Everyday Struggles Of Faith:

Between Sundays Marla Frederick, 2003-11-20 To be a black woman of faith in the American South is to understand and experience spirituality in a particular way How this understanding expresses itself in everyday practices of faith is the subject of *Between Sundays* an innovative work that takes readers beyond common misconceptions and narrow assumptions about black religion and into the actual complexities of African American women's spiritual lives Gracefully combining narrative interviews and analysis this book explores the personal political and spiritual commitments of a group of Baptist women whose experiences have been informed by the realities of life in a rural southern community In these lives spirituality emerges as a space for creative agency of vital importance to the ways in which these women interpret inform and reshape their social conditions conditions often characterized by limited access to job opportunities health care and equitable schooling In the words of these women and in Marla F Frederick's deft analysis we see how spirituality expressed as gratitude empathy or righteous discontent operates as a transformative power in women's interactions with others and in their own more intimate renegotiations of self

Between Sundays Marla Faye Frederick, 2003 An ethnographic study of the role of religion in the life of a southern rural community

Faith and Struggle in the Lives of Four African Americans Randal Maurice Jelks, 2019-01-10 In 1964 Muhammad Ali said of his decision to join the Nation of Islam I know where I'm going and I know the truth and I don't have to be what you want me to be I'm free to be what I want to be This sentiment the brash assertion of individual freedom informs and empowers each of the four personalities profiled in this book Randal Maurice Jelks shows that to understand the Black American experience beyond the larger narratives of enslavement emancipation and Black Lives Matter we need to hear the individual stories Drawing on his own experiences growing up as a religious African American he shows that the inner history of Black Americans in the 20th century is a story worthy of telling This book explores the faith stories of four African Americans Ethel Waters Mary Lou Williams Eldridge Cleaver and Muhammad Ali It examines their autobiographical writings interviews speeches letters and memorable performances to understand how each of these figures used religious faith publicly to reconcile deep personal struggles voice their concerns for human dignity and reinvent their public image For them liberation was not simply defined by material or legal wellbeing but by a spiritual search for community and personal wholeness

Righteous Content Daphne C. Wiggins, 2006-03 Enter most African American congregations and you are likely to see the century old pattern of a predominantly female audience led by a male pastor How do we explain the dedication of African American women to the church particularly when the church's regard for women has been questioned Following in the footsteps of Evelyn Brooks Higginbotham's pathbreaking work *Righteous Discontent* Daphne Wiggins takes a contemporary look at the religiosity of black women Her ethnographic work explores what is behind black women's intense loyalty to the church bringing to the fore the voices of the female membership of black churches as few have done Wiggins illuminates the spiritual sustenance the church provides black

women uncovers their critical assessment of the church's ministry and interprets the consequences of their limited collective activism Wiggins paints a vivid portrait of what lived religion is like in black women's lives today **Kincraft** Todne Thomas, 2021-02-22 In *Kincraft* Todne Thomas explores the internal dynamics of community life among black evangelicals who are often overshadowed by white evangelicals and the common equation of the Black Church with an Afro Protestant mainline Drawing on fieldwork in an Afro Caribbean and African American church association in Atlanta Thomas locates black evangelicals at the center of their own religious story presenting their determined spiritual relatedness as a form of insurgency She outlines how church members cocreate themselves as spiritual kin through what she calls kincraft the construction of one another as brothers and sisters in Christ Kincraft which Thomas traces back to the diasporic histories and migration experiences of church members reflects black evangelicals understanding of Christian familial connection as transcending racial ethnic and denominational boundaries in ways that go beyond the patriarchal nuclear family Church members also use their spiritual relationships to navigate racial and ethnic discrimination within the majority white evangelical movement By charting kincraft's functions and significance Thomas demonstrates the ways in which black evangelical social life is more varied and multidimensional than standard narratives of evangelicalism would otherwise suggest **Economic Ethics & the Black Church** Wylis D. Wilson, 2017-09-07 This book examines the relationship between race religion and economics within the black church The book features unheard voices of individuals experiencing economic deprivation and the faith communities who serve as their refuge Thus this project examines the economic ethics of black churches in the rural South whose congregants and broader communities have long struggled amidst persistent poverty Through a case study of communities in Alabama's Black Belt this book argues that if the economic ethic of the Black Church remains accommodationist it will continue to become increasingly irrelevant to communities that experience persistent poverty Despite its historic role in combatting racial oppression and social injustice the Church has also perpetuated ideologies that uncritically justify unjust social structures Wilson shows how the Church can shift the conversation and reality of poverty by moving from a legacy of accommodationism and toward a legacy of empowering liberating economic ethics **African American Religious Experiences** Gloria Robinson Boyd, 2010-02-19 African Americans encountered many challenges throughout history facing slavery Reconstruction Jim Crow and other forms of racism Many relied on religion as their source of strength and endurance The African American religious experience is a story of survival that demonstrates how religion became the key ingredient that allowed a race to adapt and survive the harshest systems of injustice and prejudice in America Religion became the greatest universal and dynamic tool of survival adopted by enslaved individuals and the utmost weapon known to the black race African American religious practices a blend of African and European traditions are distinctively unique because of worship styles and contemplative practices all reflective of the vital role religion played in the lives of blacks during slavery and beyond **Handbook of African**

The Other Black Church Joseph L. Tucker Edmonds, 2020-12-02 The Other Black Church Alternative Christian Movements and the Struggle for Black Freedom examines the movements led by Father Divine Charles Mason and Albert Cleage later known as Jaramogi Abebe Agyeman as alternative Christian movements in the middle of the twentieth century that radically re-envisioned the limits and possibilities of Black citizenship These movements not only rethink the value and import of Christian texts and reimagined the role of the Black Christian prophetic tradition but they also outlined a new model of protest that challenged the language and logic of Black essentialism economic development and the role of the state By placing these movements in conversation with the long history of Black theology and Black religious studies this book suggests that alternative Christian movements are essential for thinking about African American critiques of and responses to the failures of U.S. based democracy These prophets of Black theological thought and their attention to the limits of the state and traditional Black religious formations are most fully appreciated when studied in light of their conversations and interactions with other key Black prophetic and theological figures of the mid twentieth century Ultimately The Other Black Church will use those conversations and archives from these movements to highlight their protest of the racial state to explore the limits of the Black church and to argue for their continued significance for thinking about the variety and vibrancy of Black protest specifically Black religious protest during the twentieth century Sunday Craig

Harline, 2011-09-13 The mere mention of Sunday will immediately conjure up a rich mix of memories associations and ideas for most anyone of any age Whatever we think of be it attending church reading a bulky newspaper eating brunch or watching football Sunday occupies a unique place in Western civilization But how did we come to have a day with such a singular set of traditions Here historian Craig Harline examines Sunday from its ancient beginnings to contemporary America in a fascinating blend of stories and analysis For the earliest Christians the first day of the week was a time to celebrate the liturgy observe the Resurrection and work But over time Sunday in the Western world took on still other meanings and rituals especially in the addition of both rest and recreation to the day's activities Harline illuminates these changes in enlightening profiles of Sunday in medieval Catholic England Sunday in the Reformation and Sunday in

nineteenth century France home of the most envied and sometimes despised Sunday of the modern world He continues with moving portraits of soldiers and civilians trying to observe Sunday during World War I examines the quiet Sunday of England in the 1930s and concludes with the convergence of various European traditions in the American Sunday which also adds some distinctly original habits of its own such as in the realms of commerce and professional sports With engaging prose and scholarly integrity Sunday is an entertaining and long overdue look at a significant hallmark of Western culture
