Beyond Addiction: Thomas G. Beley, PhD, LCSW, 2014 If you are a person who has struggled with an addiction or a family member who is helplessly watching the slow death of a loved one from an addiction or even a seasoned professional who is overwhelmed and frustrated over the chronic relapses of clients here is a simple question to ask yourself if you are wondering whether this book is for you Does a person have control over a relapse If you answered yes then this book is absolutely for you This book is for you because the answer to this question is an emphatic NO Why is the answer no Addiction like any other disease follows a natural process Once it starts this process will continue its natural course that will eventually lead a person to a more deteriorated condition certain pain and suffering or even worse death There are no exceptions to this natural process unless of course this process is interrupted The more important question that needs to be asked is Does a person have control over their recovery The answer to this question is an emphatic YES The intent of this book is not so much to focus on the science of addiction although this will be addressed as much as it is on the science of recovery Although the reader will better understand some of the basic neurobiological processes underlying addiction It is just not genetics alone the reader will also explore how these same neurobiological processes are essential to recovery The contention here is that if there is a science of addiction there must be a science of recovery This book will explore the many facets of healing within the recovery process with particular emphasis on examining the role of our neurobiology and behavior More importantly it will give readers whether a person suffering from an addiction a distraught loved one or a frustrated professional insight and a blueprint as to what needs to be done for a successful recovery regardless of the disorder Is relapse a part of recovery Absolutely Not

Beyond Addiction: Thomas G. Beley, 2014-03-05 If you are a person who has struggled with an addiction or a family member who is helplessly watching the slow death of a loved one from an addiction or even a seasoned professional who is overwhelmed and frustrated over the chronic relapses of clients here is a simple question to ask yourself if you are wondering whether this book is for you Does a person have control over a relapse If you answered yes then this book is absolutely for you This book is for you because the answer to this question is an emphatic NO Why is the answer no Addiction like any other disease follows a natural process Once it starts this process will continue its natural course that will eventually lead a person to a more deteriorated condition certain pain and suffering or even worse death There are no exceptions to this natural process unless of course this process is interrupted The more important question that needs to be asked is Does a person have control over their recovery The answer to this question is an emphatic YES The intent of this book is not so much to focus on the science of addiction although this will be addressed as much as it is on the science of recovery Although the reader will better understand some of the basic neurobiological processes underlying addiction It is just not genetics alone the reader will also explore how these same neurobiological processes are essential to recovery The contention here is that if there is a science of addiction there must be a science of recovery This book will explore the many facets of healing within

the recovery process with particular emphasis on examining the role of our neurobiology and behavior More importantly it will give readers whether a person suffering from an addiction a distraught loved one or a frustrated professional insight and a blueprint as to what needs to be done for a successful recovery regardless of the disorder Is relapse a part of recovery Absolutely Not *Beyond Addiction* Jeffrey Foote, Carrie Wilkens, Nicole Kosanke, Stephanie Higgs, 2014-02-18 The most innovative leaders in progressive addiction treatment in the US offer a groundbreaking science based guide to helping loved ones overcome addiction problems and compulsive behaviors The most innovative leaders in progressive addiction treatment in the US offer a groundbreaking science based guide to helping loved ones overcome addiction problems and compulsive behaviors Beyond Addiction eschews the theatrics of interventions and tough love to show family and friends how they can use kindness positive reinforcement and motivational and behavioral strategies to help their loved ones change Drawing on forty collective years of research and decades of clinical experience the authors present the best practical advice science has to offer Delivered with warmth optimism and humor Beyond Addiction defines a new empowered role for friends and family and a paradigm shift for the field Learn how to tap the transformative power of relationships for positive change guided by exercises and examples Practice what really works in therapy and in everyday life and discover many different treatment options along with tips for navigating the system And have hope this guide is designed not only to help someone change but to help someone want to change **Six Essentials to Achieve Lasting Recovery** Sterling T.
