Beyond Mothers Monsters Whores Thinking About Womens Violence In Global Politics:

Beyond Mothers, Monsters, Whores Caron E. Gentry, Laura Sjoberg, 2015-08-15 *Beyond Mothers Monsters Whores* takes the suggestion in *Mothers Monsters Whores* that it is important to see genderings in characterizations of violent women and to use critique of those genderings to retheorize individual violence in global politics. It begins by demonstrating the interdependence of the personal and international levels of global politics in violent women's lives but then shows that this interdependence is inaccurately depicted in gender subordinating narratives of women's violence. Such narratives the authors argue are not only normatively problematic on the surface but also intersect with other identifiers such as race, religion, and geopolitical location.

Mothers, Monsters, Whores Laura Sjoberg, Caron E. Gentry, 2013-07-04 A woman did that. The general reaction to women's political violence is still one of shock and incomprehension. *Mothers Monsters Whores* provides an empirical study of women's violence in global politics. The book looks at military women who engage in torture, the Chechen Black Widows, Middle Eastern suicide bombers, and the women who directed and participated in genocides in Bosnia and Rwanda. Sjoberg and Gentry analyse the biological, psychological, and sexualized stereotypes through which these women are conventionally depicted, arguing that these are rooted in assumptions about what is appropriate female behaviour. What these stereotypes have in common is that they all perceive women as having no agency in any sphere of life, from everyday choices to global political events. This book is a major feminist re-evaluation of women's motivations and actions as perpetrators of political violence.

Troubling Motherhood Lucy B. Hall, Anna L. Weissman, Laura J. Shepherd, 2020 In global politics, women's bodies are policed, objectified, surveilled, and feared, with particular attention paid to both their met or unmet procreative potential. While the significance of motherhood varies across cultures, it is as this book argues, connected not just to gender and sexuality but also to religion and nationality. Reproduction is central to the flourishing of any nation or culture, and therefore motherhood is a major signifier of women's relationship to the state. This is so much the case that states enact laws about which women can bear children and have supported sterilization efforts in cases where women are not deemed appropriate bearers of the nation. States also legislate reproductive technologies, adoption, and government support for parenting. By considering representations and narratives of maternity, this volume shows how practices of global politics shape and are shaped by the gendered norms and institutions that underpin motherhood. Motherhood matters in global politics. Yet the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life are frequently obscured or assumed to be of little interest to scholars, policymakers, and practitioners. Featuring innovative and diverse chapters on the politics of motherhood as an institution, this collection shows that maternity is troubled, complicated, and heterogeneous in global politics. Thus, performances and practices of motherhood warrant closer and more sustained scrutiny. This book builds on work by feminist international relations scholars extending into disruptive spaces of queer theory, literary critique, and post-colonial studies. The chapters in

this book consider the meaning of motherhood particularly during times of war versus peace the connections between motherhood and nationhood and reproduction of the state and care work and maternal labor particularly as performed by transnational workers Ultimately this book demonstrates the complex interconnections between the individual the state and the global through the lens of maternity [Routledge Handbook of Feminist Peace Research](#) Tarja Väyrynen, Swati Parashar, Élise Féron, Catia Cecilia Confortini, 2021-03-11 This handbook provides a comprehensive overview of feminist approaches to questions of violence justice and peace The volume argues that critical feminist thinking is necessary to analyse core peace and conflict issues and is fundamental to thinking about solutions to global problems and promoting peaceful conflict transformation Contributions to the volume consider questions at the intersection of feminism gender peace justice and violence through interdisciplinary perspectives The handbook engages with multiple feminisms diverse policy concerns and works with diverse theoretical and methodological contributions The volume covers the gendered nature of five major themes Methodologies and genealogies including theories concepts histories methodologies Politics power and violence including the ways in which violence is created maintained and reproduced and the gendered dynamics of its instantiations Institutional and societal interventions to promote peace including those by national regional and international organisations and civil society or informal groups bodies Bodies sexualities and health including sexual health biopolitics sexual orientation Global inequalities including climate change aid global political economy This handbook will be of great interest to students of peace and conflict studies security studies feminist studies gender studies international relations and politics Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Invention of Terrorism in France, 1904-1939 Chris Millington, 2023-09-26 The Invention of Terrorism in France 1904-1939 investigates the political and social imaginaries of terrorism in the early twentieth century Chris Millington traces the development of how the French conceived of terrorism from the late nineteenth century notion that terrorism was the deed of the mad anarchist bomber to the fraught political clashes of the 1930s when terrorism came to be understood as a political act perpetrated against French interests by organized international movements Through a close analysis of a series of terrorist incidents and representations thereof in public discourse and the press the book argues that contemporary ideas of terrorism in France as unFrench that is contrary to the ideas and values however defined that make up Frenchness emerged in the interwar years and subsequently took root long before the terrorist campaigns of Algerian nationalists during the 1950s and 1960s Millington conceptualizes terrorism not only as the act itself but also as a political and cultural construction of violence composed from a variety of discourses and deployed in particular circumstances by commentators witnesses and perpetrators In doing so he argues that the political and cultural battles inherent to perceptions of terrorism lay bare numerous concerns not least anxieties over immigration antiparliamentarianism representations of gender and the future of European peace

Women as War

Criminals Izabela Steflja, Jessica Trisko Darden, 2020-09-08 Women war criminals are far more common than we think From the Holocaust to ethnic cleansing in the Balkans to the Rwandan genocide women have perpetrated heinous crimes Few have been punished These women go unnoticed because their very existence challenges our assumptions about war and about women Biases about women as peaceful and innocent prevent us from seeing women as war criminals and prevent postconflict justice systems from assigning women blame Women as War Criminals argues that women are just as capable as men of committing war crimes and crimes against humanity In addition to unsettling assumptions about women as agents of peace and reconciliation the book highlights the gendered dynamics of law and demonstrates that women are adept at using gender instrumentally to fight for better conditions and reduced sentences when war ends The book presents the legal cases of four women the President Biljana Plavic the Minister Pauline Nyiramasuhuko the Soldier Lynndie England and the Student Hoda Muthana Each woman's complex identity influenced her treatment by legal systems and her ability to mount a gendered defense before the court Justice as Steflja and Trisko Darden show is not blind to gender The Emerald International Handbook of Feminist Perspectives on Women's Acts of Violence Stacy Banwell, Lynsey Black, Dawn K. Cecil, Yanyi K. Djamba, Sitawa R. Kimuna, Emma Milne, Lizzie Seal, Eric Y. Tenkorang, 2023-08-02 Grounded in feminist scholarship this book upends normative accounts of femme fatale violence to focus beyond the misogyny and the sensationalism and unearth the motivation behind women's roles in homicide terrorism combat and even nationalist movements *Researching War* Annick T. R. Wibben, 2016-05-12 *Researching War* provides a unique overview of varied feminist contributions to the study of war through case studies from around the world Written by well respected scholars each chapter explicitly showcases the role of feminist methodological ethical and political commitments in the research process Designed to be useful for teaching also the book provides insight into feminist research practices for students and scholars wanting to further their understanding what it means to study war and other issues from a feminist perspective To this end every author follows a four part structure in the presentation of their case study outlining a research puzzle explaining the chosen approach describing the findings and finally offering a reflection on the feminist commitments that guided the research This book Provides a multi disciplinary perspective on war by drawing on disciplines such as anthropology history literature peace research postcolonial theory queer studies security studies and women's studies Showcases a multiplicity of experiences with war and violence emphasizing everyday experiences of war and violence with accounts from around the world Challenges stereotypical accounts of women violence and war by pointing to contradictions and unexpected continuities as well as unexpected findings made possible by adopting a feminist perspective Teases out linkages between various forms of political violence against women but increasingly also by women Discusses theoretical and methodological innovation in feminist research on war This book will be essential reading for advanced students and scholars of Security Studies Gender and Conflict Women and War Feminist International Relations and Research Methods
