Beyond The Dark Portal World Of Warcraft:

World of Warcraft: Beyond the Dark Portal Aaron Rosenberg, 2008-06-24 The aging orc shaman Nerzhul has seized control of the Horde and reopened the Dark Portal. His brutal warriors once again encroach upon Azeroth laying siege to the newly constructed stronghold of Nethergarde Keep. There the archmage Khadgar and the Alliance commander Turalyon lead humanity and its elven and dwarven allies in fighting this new invasion. Even so disturbing questions arise. Khadgar learns of orcish incursions farther abroad, small groups of orcs who seem to pursue a goal other than simple conquest. Worse yet, black dragons have been sighted as well, and they appear to be aiding the orcs. To counter Nerzhul's dark schemes, the Alliance must now invade the orcs' ruined homeworld of Draenor. Can Khadgar and his companions stop the nefarious shaman in time to stave off the destruction of two worlds?

Original **World of Warcraft and Philosophy** Luke Cuddy, John Nordlinger, 2010-08-24

World of Warcraft is the most popular ever MMORPG, massively multiplayer online role playing game with over twelve million subscribers and growing every day. WoW is everywhere, from episodes of South Park and The Simpsons to online series like Watch the Guild, accolades and awards from game critics, prime time commercials with William Shatner and Mr. T, and even criminal and civil courts in the real world. People marry and divorce individuals they have met in the game, realworld financial markets thrive in virtual WoW, property parents have their kids treated for Warcraft addiction, and real world lawsuits, vendettas, and murders have been provoked by the game. Since identities are known to be assumed, is it okay to totally misrepresent yourself in the game? Does the Corrupted Blood epidemic warn us of future public health catastrophes? How can it be wrong to steal something which doesn't exist or torture characters who don't feel pain? Is warfare really essential to the world of Warcraft? What can our own world learn from Azeroth's blend of primitivism and high tech? A specially commissioned guild of philosophers tackle these and other hard questions in *World of Warcraft and Philosophy*. Finally something Horde and

Alliance alike can enjoy Log off and curl up with World of Warcraft and Philosophy you ll level up your Intellect for better boasting at your next guild party and cocktail party alike Battlefront II: Inferno Squad (Star Wars) Christie Golden,2017-07-25 NEW YORK TIMES BESTSELLER Set in the aftermath of Rogue One A Star Wars Story this action packed prequel to the hotly anticipated videogame Battlefront II introduces the Empire s elite force Inferno Squad After the humiliating theft of the Death Star plans and the destruction of the battle station the Empire is on the defensive But not for long In retaliation the elite Imperial soldiers of Inferno Squad have been called in for the crucial mission of infiltrating and eliminating the Partisans the rebel faction once led by notorious Republic freedom fighter Saw Gerrera Following the death of their leader the Partisans have carried on his extremist legacy determined to thwart the Empire no matter the cost Now Inferno Squad must prove its status as the best of the best and take down the Partisans from within But the growing threat of being discovered in their enemy s midst turns an already dangerous operation into a do or die acid test they dare not fail To protect and preserve the Empire to what lengths will Inferno Squad go and how far beyond them The Rebellion may have heroes like Jyn Erso and Luke Skywalker But the Empire has Inferno Squad Praise for Battlefront II Inferno Squad Wow This book is a must read Christie Golden just knocked it out of the park The Geek s Attic A great space thriller full of action drama and character Rebels Report 100 Greatest Video Game Franchises Robert Mejia,Jaime Banks,Aubrie Adams,2017-08-17 Video games take players on a trip through ancient battlefields to mythic worlds and across galaxies They provide players with a way to try on new identities and acquire vast superpowers Video games also give people the chance to hit reset to play again and again until they achieve a desired outcome Their popularity has enabled them to grow far beyond their humble origins and to permeate other forms of popular culture from comic books and graphic novels to films and television programs Video games are universal In 100 Greatest Video Game Franchises editors Robert Mejia Jaime Banks and Aubrie Adams have assembled essays that identify assess and reveal the most important video games of all time Each entry makes a case for the game s cultural significance and why it deserves to be on the list from its influence on other games to its impact on an international scale In addition to providing information about the game developer and when the franchise was established these entries explore the connections between the different video games examining them across genre theme and content This accessible collection of essays gives readers an opportunity to gauge their favorite video game franchises against the best of all time and argue how they each fit among the 100 greatest ever created Whether casually looking up information on these games or eager to learn how franchises evolved over the years readers will enjoy this entertaining and informative volume Comprehensive and engaging 100 Greatest Video Game Franchises will appeal to fans and scholars alike
