Digital Scholarly Editions Beyond Text Tessa Gengnagel, 2024-02-07 Scholarly editions contextualize our cultural heritage. Traditionally, methodologies from the field of scholarly editing are applied to works of literature e.g. in order to trace their genesis or present their varied history of transmission. What do we make of the variance in other types of cultural heritage? How can we describe, record, and reproduce it systematically? From medieval to modern times, from image to audiovisual media, the book traces discourses across different disciplines in order to develop a conceptual model for scholarly editions on a broader scale. By doing so, it also delves into the theory and philosophy of the digital humanities as such.

Collecting the Imagination Megan Barnard, 2007-04-01 The Harry Ransom Humanities Research Center at the University of Texas at Austin is one of the world's preeminent institutions for the study of literature, photography, and the humanities. The Ransom Center is renowned for its remarkable collections of literary manuscripts, rare books, photographs, art, and film, and performing arts materials. Founded in 1957 with a core collection of rare books, the Ransom Center has expanded its holdings at a phenomenal rate so that it now houses 36 million leaves of manuscripts, 1 million rare books, 5 million photographs, and one hundred thousand works of art. Among its most famous holdings are a Gutenberg Bible, the Helmut Gernsheim Collection, a major photohistorical archive that contains the world's first photograph (ca. 1826), the Carl H. Pforzheimer Library of Early English Literature, the Watergate papers of Bob Woodward and Carl Bernstein, the archive and costume collection of Robert De Niro, and the personal literary archives of hundreds of major twentieth-century writers, from Samuel Beckett and James Joyce to Tom Stoppard and Norman Mailer. This volume celebrates the fiftieth anniversary of the Harry Ransom Center. Staff members describe the Center's founding, the remarkable growth of its collections as part of a thoughtful and deliberate acquisition plan, and its extensive outreach to scholars, students, and the general public. They pay tribute to the leadership of Harry Ransom, who conceived the idea of a research center in the humanities that would be for the state of Texas what the Bibliothèque Nationale is for France. The authors also tell fascinating stories of how individual collections and archives were acquired, as well as some of the controversies and myths that have arisen as a result of the Ransom Center's liberal spending and rapid growth. Photographs of treasures from the Ransom Center and key figures in its history round out this lovely and authoritative volume.

Principles of Computer Security: CompTIA Security+ and Beyond, Sixth Edition (Exam SY0-601) Wm. Arthur Conklin, Greg White, Chuck Cothren, Roger L. Davis, Dwayne Williams, 2021-07-29 Fully updated computer security essentials mapped to the CompTIA Security SY0-601 exam. Save 10% on any CompTIA exam voucher. Coupon code inside. On Close Reading John Guillory, 2025-01-08 John Guillory considers close reading within the larger history of reading and writing as cultural techniques At a time of debate about the future of English as a discipline and the fundamental methods of literary study few terms appear more frequently than close reading now widely regarded as the core practice of literary study But what exactly is close reading and where did it come from Here John Guillory author of the acclaimed *Professing Criticism* takes up two puzzles First why did the New Critics who supposedly made close reading central to literary study so seldom use the term And second why have scholars not been better able to define close reading For Guillory these puzzles are intertwined The literary critics of the interwar period he argues weren't aiming to devise a method of reading at all These critics were most urgently concerned with establishing the judgment of literature on more rigorous grounds than previously obtained in criticism Guillory understands close reading as a technique a particular kind of methodical procedure that can be described but not prescribed and that is transmitted largely by demonstration and imitation Guillory's short book will be essential reading for all college teachers of literature An annotated bibliography curated by Scott Newstok provides a guide to key documents in the history of close reading along with valuable suggestions for further research

Surviving Technopolis Arthur W. Hunt III, 2013-09-24 Technopolis has no end in view other than bigger faster newer and more While giving us many material benefits at least in the short run in its wake are spiritual loss alienation and devastation These essays not only evaluate Technopolis but also seek wisdom to cope with our new human made environments Positively stated they offer suggestions on how to bring us back into balance Some of our best wisdom in analyzing Technopolis can be found in the voices of the Christian humanists Unlike Enlightenment humanism which tends to be human centered Christian humanism is concerned with the role of humankind within God's created order G K Chesterton T S Eliot J R R Tolkien and C S Lewis represent this tradition They and others like them understood that technological progress with no clear telos obscures what Eliot called the permanent things Surviving Technopolis means

restoring the things closest to us those old identity forming institutions of home church and community

Guide to Security Considerations and Practices for Rare Book, Manuscript, and Special Collection Libraries Everett C. Wilkie, 2011-09 The Guide to Security Considerations and Practices for Rare Book Manuscript and Special Collection Libraries is the first such book intended specifically to address security in special collection libraries Containing nineteen chapters the book covers such topics as background checks reading room and general building design technical processing characteristics and methods of thieves materials recovery after a theft and security systems While other topics are touched upon the key focus of this volume is on the prevention of theft of rare materials The work is supplemented by several appendices one of which gives brief biographies of recent thieves and another of which publishes Allen s important Blumberg Survey which she undertook after that thief s conviction The text is supported by illustrations a detailed index and an extensive bibliography The work compiled and edited by Everett C Wilkie Jr contains contributions from Anne Marie Lane Jeffrey Marshall Alvan Bregman Margaret Tenney Elaine Shiner Richard W Oram Ann Hartley Susan M Allen and Daniel J Slive all members of the ACRL Rare Books Manuscripts Section RBMS and experts in rare materials and the security of these materials within special collections This work is essential reading for all those concerned with special collection security from general library administrators to rare book librarians c From Amazon com

A City Tossed and Broken: The Diary of Minnie Bonner, San Francisco, California, 1906 (Dear America) Judy Blundell, 2013-03-01 From National Book Award winning author Judy Blundell a thrilling account of the San Francisco Earthquake of 1906 When Minnie Bonner s father disappears after losing the Bonners Philadelphia tavern the wealthy gentleman Edward Sump led by his avaricious wife offers Minnie a chance to work as a lady s maid to support her family The Sumps have grand plans grander than the city of Philadelphia can offer however and decide to move to San Francisco the greatest city in the west But when a powerful earthquake strikes Minnie finds herself the sole survivor among them After the dust settles Minnie discovers a bag belonging to the Sumps filled with cash and papers that could drastically change her fortune With no one else to claim it Minnie has turned into an heiress overnight Wealth comes at a price though and she is soon wrapped up in a deception that leads her down a dangerous path As the aftermath of the earthquake ravages the city Minnie continues to maintain her new identity That is until a mysterious but familiar stranger appears

Book Talk Robert H. Jackson (jurist), Carol Zeman Rothkopf, 2006 A fascinating and valuable insight into the fast changing worlds of the bibliophile John Lewis
