Beyond The Boundaries:

Beyond the Boundaries Larry Lankton, 1999-05-06 Spanning the years 1840 1875 *Beyond the Boundaries* focuses on the settlement of Upper Michigan's Keweenaw Peninsula telling the story of reluctant pioneers who attempted to establish a decent measure of comfort control and security in what was in many ways a hostile environment Moving beyond the technological history of the period found in his previous book *Cradle to the Grave* Life Work and Death at the Lake Superior Copper Mines OUP 1991 Lankton here focuses on the people of this region and how the copper mining affected their daily lives A truly first rate social history *Beyond the Boundaries* will appeal to historians of the frontier and of Michigan and the Great Lakes region as well as historians of technology labor and everyday life

Beyond the Boundaries Douglas Kaufman, David Moss, Terry A. Osborn, 2003-12-30 Many contemporary secondary education standards call for teachers to reach across traditional disciplinary lines and create curricula and instructional techniques that are interdisciplinary in nature as examples for mathematics see *Principles and Standards for School Mathematics* for science see *National Science Education Standards* for foreign language see *Standards for Foreign Language Learning* Preparing for the 21st Century Yet due to the highly entrenched and fragmented administrative structure of teacher education fields including tertiary preparation and state certification most practitioners and teacher educators approach said endeavors from a subject specific orientation This contributed volume includes perspectives from major areas in secondary teacher education including Science Mathematics Social Studies Art Literacy English Language Arts Foreign Language Bilingual Education foundations and Literacy The book includes both theoretical and practical aspects as to how teachers are being prepared to create and implement transdisciplinary units The authors explore how these approaches can be improved such that teachers attempt to apply transdisciplinary epistemological and pedagogical structures which emphasize inquiry from multiple perspectives to avail the full power of such learning experiences to the students

Swahili Beyond the Boundaries Alamin M. Mazrui, Alamin Mazrui, 2007 Africa is a marriage of cultures African and Asian Islamic and Euro Christian Nowhere is this fusion more evident than in the formation of Swahili Eastern Africa's lingua franca and its cultures *Swahili Beyond the Boundaries* Literature Language and Identity addresses the moving frontiers of Swahili literature under the impetus of new waves of globalization in the twentieth and twenty first centuries These momentous changes have generated much theoretical debate on several literary fronts as Swahili literature continues to undergo transformation in the mill of human creativity Swahili literature is a hybrid that is being reconfigured by a conjuncture of global and local forces As the interweaving of elements of the colonizer and the colonized this hybrid formation provides a representation of cultural difference that is said to constitute a third space blurring existing boundaries and calling into question established identitarian categorizations This cultural dialectic is clearly evident in the Swahili literary experience as it has evolved in the crucible of the politics of African cultural production However *Swahili Beyond the Boundaries* demonstrates that from the

point of view of Swahili literature while hybridity evokes endless openness on questions of home and identity it can simultaneously put closure on specific forms of subjectivity In the process of this contestation a new synthesis may be emerging that is poised to subject Swahili literature to new kinds of challenges in the politics of identity compounded by the dynamics and counterdynamics of post Cold War globalization
