Beyond The Box Television And The Internet:

Beyond the Box Sharon Marie Ross, 2011-09-23 *Beyond the Box* gives students and couch potatoes alike a better understanding of what it means to watch television in an era of profound technological change Charts the revolution in television viewing that is currently underway in living rooms across the world Probes how the Internet's development has altered how television is made and consumed Looks at a range of topics and programmes from voting practices on American Idol to online forums for Buffy the Vampire Slayer fans Offers a fresh and innovative perspective that focuses on the shift in audience experience and how it has blurred established boundaries

Connected Viewing Jennifer Holt, Kevin Sanson, 2013-12-04 As patterns of media use become more integrated with mobile technologies and multiple screens a new mode of viewer engagement has emerged in the form of connected viewing which allows for an array of new relationships between audiences and media texts in the digital space This exciting new collection brings together twelve original essays that critically engage with the socially networked multi platform and cloud based world of today examining the connected viewing phenomenon across television film video games and social media The result is a wide ranging analysis of shifting business models policy matters technological infrastructure new forms of user engagement and other key trends affecting screen media in the digital era Connected Viewing contextualizes the dramatic transformations taking place across both media industries and national contexts and offers students and scholars alike a diverse set of methods and perspectives for studying this critical moment in media culture

Broadway in the Box Kelly Kessler, 2020 It was as if American television audiences discovered the musical in the early 21st century In 2009 Glee took the Fox Network and American television by storm with the unexpected unification of primetime programming awkward teens and powerful voices spontaneously bursting into song After raking in the highest rating for a new show in the 2009 2010 season Glee would continue to cultivate rabid fans tie in soundtracks and merchandising and a spinoff reality competition show until its conclusion in 2015 Alongside Glee NBC and Fox would crank up musical visibility with the nighttime drama Smash and a string of live musical productions Then came ABC's comedic fantasy musical series Galavant and the CW's surprise Golden Globe darling My Crazy Ex Girlfriend Television and the musical appeared to be a perfect match But as author Kelly Kessler illustrates television had at that point been carrying on a sixty year symbiotic love affair with the musical From Rodgers and Hammerstein's appearance on the first Toast of the Town telecast and Mary Martin's iconic Peter Pan airings to Barbra Streisand's 1960s CBS specials The Carol Burnett Show Cop Rock Great Performances and a string of one off musical episodes of sitcoms nighttime soaps fantasy shows and soap operas television has always embraced the musical Kessler shows how the form is written across the history of American television and how its various incarnations tell the stories of shifting American culture and changing television film and theatrical landscapes She recounts and explores this rich decades long history by traversing musicals stars and sounds from film Broadway and Las Vegas to the small screen

Online TV Catherine Johnson, 2019-01-04 With growth in

access to high speed broadband and 4G and increased ownership of smartphones tablets and internet connected television sets the internet has simultaneously begun to compete with and transform television Online TV argues that these changes create the conditions for an emergent internet era that challenges the language and concepts that we have to talk about television as a medium In a wide ranging analysis Catherine Johnson sets out a series of conceptual frameworks designed to provide a clearer language with which to analyse the changes to television in the internet era and to bring into focus the power dynamics of the online TV industry From providing definitions of online TV and the online TV industry to examining the ways in which technology rights interfaces and algorithms are used to control and constrain access to audiovisual content Online TV is a timely intervention into debates about contemporary internet and television cultures A must read for any students scholars and practitioners who want to understand and analyse the ways in which television is intertwining with and being transformed by the internet

Television and New Media Jennifer Gillan, 2010-10-18 Television and New Media introduces students to the ways that new media technologies have transformed contemporary television production distribution and reception practices Drawing upon recent examples including Lost 24 and Heroes this book closely examines the ways that television programming has changed with the influx of new media transforming nearly every TV series into a franchise whose on air online and on mobile elements are created simultaneously and held together through transmedia storytelling This book is essential for understanding how creative and industrial forces have worked together in the new media age to transform the way we watch TV

Television Brandcasting Jennifer Gillan, 2014-11-20 Television Brandcasting examines U S television s utility as a medium for branded storytelling It investigates the current and historical role that television content promotion and hybrids of the two have played in disseminating brand messaging and influencing consumer decision making Juxtaposing the current period of transition with that of the 1950s 1960s Jennifer Gillan outlines how in each era new technologies unsettled entrenched business models an emergent viewing platform threatened to undermine an established one and content providers worried over the behavior of once dependable audiences The anxieties led to storytelling promotion and advertising experiments including the Disneyland series embedded rock music videos in Ozzie Harriet credit sequence brand integration Modern Family s parent company promotion episodes second screen initiatives and social TV experiments Offering contemporary and classic examples from the American Broadcasting Company Disney Channel ABC Family and Showtime alongside series such as Bewitched Leave it to Beaver Laverne Shirley and Pretty Little Liars individual chapters focus on brandcasting at the level of the television series network schedule Blu ray DVD Digital combo pack the promotional short the cause marketing campaign and across social media In this follow up to her successful previous book Television and New Media Must Click TV Gillan provides vital insights into television s role in the expansion of a brand centric U S culture

The Internet, Social Networks and Civic Engagement in Chinese Societies Wenhong Chen, 2016-04-14 The Internet in China reflects many contradictions and complexities of the society in which it is embedded

Despite the growing significance of digital media and communication technologies research on their contingent non linear and sometimes paradoxical impact on civic engagement remains theoretically underdeveloped and empirically understudied As importantly many studies on the internet s implications in Chinese societies have focused on China This book draws on a variety of theoretical and methodological approaches to advance a balanced and context rich understanding of the effects of digital media and communication technologies especially social media for state legitimacy the rise of issue based networks the growth of the public sphere and various forms of civic engagement in China Taiwan and the global Chinese diaspora Using ethnography interview experiment survey and the big data method scholars from North America Europe and Asia show that the couture and impacts of digital activism depend on issue and context This book was originally published as a special issue of Information Communication Society

The Procrastination Economy Ethan Tussey,2020-04-01 2018 Outstanding Academic Title given by Choice Magazine How mobile devices make our in between moments valuable to media companies while also providing a sense of control and connection In moments of downtime waiting for a friend to arrive or commuting to work we pull out our phones for a few minutes of distraction Just as television reoriented the way we think about living rooms mobile devices have taken over the interstitial spaces of our everyday lives Ethan Tussey argues that these in between moments have created a procrastination economy an opportunity for entertainment companies to create products apps platforms subscription services micropayments and interactive opportunities that can colonize our everyday lives But as businesses commoditize our free time and mobile devices become essential tools for promotion branding and distribution consumers are using these devices as a means of navigating public and private space These devices are not just changing the way we spend and value our time but also how we interact with others and transform our sense of the politics of space By examining the four main locations of the procrastination economy the workplace the commute the waiting room and the connected living room Ethan Tussey illuminates the relationship between the entertainment industry and the digitally empowered public

Global Media Convergence and Cultural Transformation: Emerging Social Patterns and Characteristics Jin, Dal Yong,2010-11-30 This book aims to engage the complex relationship between technology culture and socio economic elements by exploring it in a transnational yet contextually grounded framework exploring diverse perspectives and approaches from political economy to cultural studies and from policy studies to ethnography Provided by publisher
