Lead Like a Teacher: How to Elevate Expertise in Your School Miriam Plotinsky, 2023-03-28 For the sake of students close the empathy gap between the classroom and the front office Far too often teachers and administrators are adversaries within a school or district and display a mutual distrust and disrespect for each other s perspectives Yet when this dissonance can be overcome the result is a more harmonious school environment that promotes student achievement In Lead Like a Teacher instructional specialist Miriam Plotinsky urges secondary school administrators to lead more effectively by actively listening to teachers and welcoming their expertise Each chapter examines one of nine key aspects of leadership and offers specific creative solutions to the complex challenge of empowering change Moving from a micro to a macro focus as the book progresses from classroom instruction to schoolwide initiatives Plotinsky provides administrators with the tools to build and maintain collaborative leadership structures This thoughtful approach to secondary leadership provides an actionable plan to

dismantle some of the biggest barriers to achieving school excellence *Small But Mighty* Miriam Plotinsky, 2024-09-30 In teaching the details matter When educators make small changes to their practice they can reap big rewards and produce big results Teaching can be a daunting profession There s so much material to cover and so many demands to meet issues to resolve new programs to implement and relationships to deal with And there s never enough time Teachers have always found ways to cope but what they really need is a new and sustainable way to approach everyday challenges one that will lead to better outcomes and a healthier environment for their students and themselves In *Small but Mighty How Everyday Habits Add Up to More Manageable and Confident Teaching* Miriam Plotinsky explores the benefits of habit stacking making a series of small gradual shifts in practice before during and after instruction and in the broader context of teacher and student wellness Noting that motivation is an unreliable factor in success and that large scale change is often more disruptive than meaningful Plotinsky offers practical classroom based tools and strategies teachers can use to make incremental adjustments to planning collaboration classroom management assessment feedback and other elements of practice Each chapter includes scenarios that readers will recognize as the kinds of anxiety inducing situations they regularly face along with examples of the transformative changes they can kick off by adopting a few new habits Like a knowledgeable and trusted mentor Plotinsky offers advice support and reassurance to educators who may be questioning their ability to withstand the pressures of today s school environment and clarifies how a small but mighty approach to change leads to a more satisfying and fulfilling experience in the classroom and beyond *The Visual Manager* Jon Moreton, 2015-11-30 Visual management is a visual system used by a business team to get better results to focus on key targets both results targets and activity targets and drive improvement by progressively surfacing and solving the problems that prevent target adherence It does not require large scale training or culture change to get off the ground It is applicable to a wide range of business types and scalable to a single department or the whole organisation *The Visual Manager* focuses on how leaders teach and coach people to use Visual Management be clear and simple with their communication both visually and verbally the power of brevity As human beings we are very good at complicating things We also make big assumptions about what other people know The power of knowledge within a team is not the sum of the individual knowledge of its members but their ability to share that knowledge and to use it to focus on solving their most important problems **Creatives Working Together** Jeffrey Michael Bays, 2025-10-23 With this book filmmaker Jeffrey Michael Bays utilizes a range of professional leadership experience with his background in creative collaboration to guide today s media practitioners in getting along harmoniously This book begins by exploring the unique personality traits that make it difficult for artists to work together then offers solutions with expertly guided tutorials on leadership motivation and conflict resolution Readers are then guided through the intimidating waters of business communication including how to manage their inbox and send clear effective emails The text includes case studies featuring content on real media practitioners ethics scenarios writing exercises as well as surveys and
