Meeting,2009 **NL ARMS Netherlands Annual Review of Military Studies 2019** Wim Klinkert,Myriame Bollen,Marenne Jansen,Henk de Jong,Eric-Hans Kramer,Lisette Vos,2019-07-16 This book has as its subject matter the academic education of officers and builds on the signing of the Bologna Declaration in 1999 by twenty nine European ministers for Education and Science who thereby agreed to coordinate higher education across Europe by for instance the implementation of the Bachelor s and Master s system In the meantime military academies have also introduced the BaMa system into their programs for officers education which marks a transition from the old days when officers education took place within a national military system under military command and was firmly grounded in principles traditions and needs as professed by the Ministries of Defence and the armed forces in particular So the Bologna Declaration can be seen as crucial leverage for the development of in house academic degree programs as a fundamental part of officers education With this volume the editors of NL ARMS 2019 strive to offer a platform to both academics and military and civilian practitioners as well as to combinations of these to reflect and share their thoughts on officers education before and after Bologna both in The Netherlands and abroad To this end controversies and challenges affecting various aspects and systems of officers

education have been grouped into five themes. Respectively the first four themes comprise institutional settings and change, educational philosophy, educational challenges and reflective practices, and didactical solutions. The fifth theme, international perspectives, provides insights into the strategic environments and challenges faced by sister academies as well as ways to further officers' education across Europe such as offered by Erasmus programs. All the editors of this year's volume are affiliated with the Faculty of Military Sciences of the Netherlands Defence Academy in Breda, The Netherlands.

**The 37th Annual Conference on Power System and Automation in Chinese Universities (CUS-EPSC)** Pingliang Zeng, Xiao-Ping Zhang, Vladimir Terzija, Yi Ding, Yunxia Luo, 2023-04-24. This book includes original peer-reviewed research papers from the 37th Annual Conference of Power System and Automation in Chinese Universities (CUS-EPSC) held in Hangzhou, China, on October 23-25, 2022. These papers cover topics as: Evolution and development path of the power system; Resilience assessment; Analysis and planning of power system; Power system planning and reliability; Modelling and simulation of novel power system; Power electronic for power system stability analysis; Power system relay protection and automation; and so on. The papers included in this proceedings share the latest research results and practical application examples on the methodologies and algorithms in these areas, which makes the book a valuable reference for researchers, engineers, and university students.
