Bonnard, Sketches of a Journey, 1989 Sketches of a Journey Octave Mirbeau, 1989 **Bonnard** Octave Mirbeau, 1989 **A Sourcebook of Gauguin's Symbolist Followers** Russell T. Clement, Annick Houzé, Christiane Erbolato-Ramsey, 2004-06-30 Paul Gauguin 1848 1903 played a seminal role in Post Impressionist France In his writings and work he favored emotional responses to nature over intellectual uses of lines color and composition In 1888 he and Emile Bernard developed a new style called Synthetism Three groups of Gauguin s symbolist followers Pont Aven Les Nabis and Rose Croix pursued and extended the Synthetist vision This sourcebook focuses on the most prominent adherents of the three schools directly affected by Gauguin s symbolism This is the first comprehensive single volume guide and bibliography of artists in these three important French avant garde movements This work covers the entire careers of 16 artists by providing biographical sketches chronologies citations to primary and secondary literature and exhibitions **Drawing**, 1986 **The Horse in Art** John Baskett, 2006-01-01 Looks at painting and sculpture throughout history to examine the role and presentation of the horse in ancient Oriental medieval Renaissance Baroque and modern art **The Book of Touch** Constance Classen, 2020-09-03 This book puts a finger on the nerve of culture by delving into the social life of touch our most elusive yet most vital sense From the tortures of the Inquisition to the corporeal comforts of modernity and from the tactile therapies of Asian medicine to the virtual tactility of cyberspace The Book of Touch offers excursions into a sensory territory both foreign and familiar How are masculine and feminine identities shaped by touch What are the tactile experiences of the blind or the autistic How is touch developed differently across cultures What are the boundaries of pain and pleasure Is there a politics of touch Bringing together classic writings and new work this is an essential guide for anyone interested in the body the senses and the experiential world The Senses of Modernism Sara Danus, 2002 In The Senses of Modernism Sara Danus develops a radically new theoretical and historical understanding of high modernism The author analyses works by Mann Proust and Joyce as narratives of the sweeping changes that affected high and low culture *The Illustrated London News*, 1845 *Pierre Bonnard* Pierre Bonnard, Nicole R. Myers, Allison Stielau, Metropolitan Museum of Art (New York, N.Y.), 2009 The vibrant late paintings of Pierre Bonnard 1867 1947 are considered by many to be among his finest achievements Working in a small converted bedroom of his villa in the south of France Bonnard suffused his late canvases with radiant Mediterranean light and dazzling color Although his subjects were close at hand usually everyday scenes taken from his immediate surroundings such as the dining room table being set for breakfast or a jug of flowers perched on the mantelpiece Bonnard rarely painted from life Instead he preferred to make pencil sketches in small diaries and then rely on these along with his memory once in the studio This volume which accompanies the first exhibition to focus on the interior and related still life imagery from the last decades of Bonnard s long career presents more than seventy five paintings drawings and works on paper many of them rarely seen in public and in some cases little known Although Bonnard s legacy

may be removed from the succession of trends that today we consider the foundation of modernism his contribution to French art in the early decades of the twentieth century is far more profound than history has generally acknowledged In their insightful essays and catalogue entries the authors bring fresh critical perspectives to the ongoing reappraisal of Bonnard s reputation and to his place within the narrative of twentieth century art Jacket
