Fassbinder's bleak portrayal of inter-racial love *Fear Eats the Soul* 1974 In the context of Haynes's background in the New Queer Cinema movement with films such as *Superstar Poison* and so this admixture makes *Far From Heaven* a rather more complex film than just another well-dressed period pastiche John Gill provides a revealing insight into how Haynes confronts issues of race, sexuality and class in a suburban 1950s American neighbourhood Haynes has been evasive when pressed for a definitive explanation of his film although as Gill contends he has left enough evidence lying around on screen for the keen viewer to pick up on numerous disturbing strands at work beneath the glossy surface of this sumptuously presented weepie While it may affect to pass as a classic of the genre Haynes's ultimate aim Gill contends is to undermine the nature and notion of cinema and storytelling
