Chemistry and Biology of the Kallikrein-kinin System in Health and Disease John J. Pisano,Karl Frank Austen,1977 The diversity and significance of recent research on the kallikrein kinin system provided the impetus for this international conference the purpose of which was the assessment of our knowledge and the development of a base from which to plan future research Through the generous support of the Fogarty International Center and of the National Heart Lung and Blood Institute the Organizing Committee was able to bring together authorities in virtually every aspect of kinin research The kallikrein kinin field was divided into three major areas A Characterization and assays of components of the kallikrein kinin systems B Interacting systems Fibrinolysis complement coagulation and prostaglandins and C Physiological pathological and clinical significance Invited experts were instructed to present concise critical reviews along with any new data Time was also provided for discussants to present relevant comments and data Selected discussions accompany the keynote reports and these comprise the short chapters

Meeting the Challenges to Measurement in an Era of Accountability Henry Braun,2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific
