Basin and St Charles to explore how the writers who have lived around them have responded in closely related ways to the environments they share On the outskirts of New Orleans today the city's precarious relation to its watery surroundings and the vexed legacies of race loom especially large But the city's literature shows us that these themes have been near to hand for New Orleans writers for several generations whether reflected through questions of masquerade dreams of escape the innocence of children or the power of money or of violence or of memory

Mississippi Witness James T. Campbell, Elaine Owens, 2019-02-01 In June 1964 Neshoba County Mississippi provided the setting for one of the most notorious crimes of the civil rights era the Klan orchestrated murder of three young voting rights workers James Chaney Michael Schwerner and Andrew Goodman Captured on the road between the towns of Philadelphia and Meridian the three were driven to a remote country crossroads shot and buried in an earthen dam from which their bodies were recovered after a forty four day search The crime transfixed the nation As federal investigators and an aroused national press corps descended on Neshoba County white Mississippians closed ranks dismissing the men's disappearance as a hoax perpetrated by civil rights activists to pave the way for a federal invasion of the state In this climate of furious conformity only a handful of white Mississippians spoke out Few did so more openly or courageously than Florence Mars A fourth generation Neshoban Mars braved social ostracism and threats of violence to denounce the murders and decry the climate of fear and intimidation that had overtaken her community She later recounted her experiences in *Witness* in Philadelphia one of the classic memoirs of the civil rights era Though few remember today Mars was also a photographer Shocked by the ferocity of white Mississippians' reaction to the Supreme Court's 1954 ruling against racial segregation she bought a camera built a homemade darkroom and began to take pictures determined to document a racial order she knew was dying *Mississippi Witness* features over one hundred of these photographs most taken in the decade between 1954 and 1964 almost all published here for the first time While a few depict public events Mars photographed the 1955 trial of the murderers of Emmett Till most feature private moments illuminating the separate and unequal worlds of black and white Mississippians in the final days of Jim Crow Powerful and evocative the photographs in *Mississippi Witness* testify to the abiding dignity of human life even in conditions of cruelty and deprivation as well as to the singular vision of one of Mississippi's and the nation's most extraordinary photographers
