Art History The Basics:

Art History: The Basics Diana Newall, Grant Pooke, 2008-03-10 *Art History The Basics* is a concise and accessible introduction for the general reader and the undergraduate approaching the history of art for the first time at college or university. It will give you answers to questions like: What is art and art history? What are the main methodologies used to understand art? How have ideas about form, sex and gender shaped representation? What connects art with psychoanalysis, semiotics and Marxism? How are globalization and postmodernism changing art and art history? Each chapter introduces key ideas, issues and debates in art history, including information on relevant websites and image archives. Fully illustrated with an international range of artistic examples, *Art History The Basics* also includes helpful subject summaries, further ideas for reading in each chapter, and a useful glossary for easy reference.

Art History Grant Pooke, Graham Whitham, 2004 Whether attending an art appreciation class, visiting a museum or checking out a gallery exhibit, *Teach Yourself Art History* introduces neophytes to the fine art of interpreting paintings. Accessible text is accompanied by a 16-page color section and black and white images and illustrations. Together, these words and visuals provide a framework for understanding the work of great artists in terms of form, social and historical contexts, representation of gender, psychology and more. Additionally, the book provides a reference for key terms and definitions currently used by art connoisseurs.

Fundamentals of Art History Anne D'Alleva, Michael Cothren, 2021-08-05 This invaluable guide enables students to get the most from their art history course. Written in an accessible style, the book introduces two basic art historical methods: formal analysis and contextual analysis. In this new edition, revising author Michael Cothren has extended the discussion on iconography and iconology, as well as adding discussions on the effects of the market and museums on art. Greater emphasis is placed on the global and multicultural aspects of art creation and analysis, with new images and more case studies. There is more step-by-step guidance on how to use these methods to prepare for exams and write papers.

Starting with an in-depth exploration of the very concept of crime, this book considers such questions as: how should we decide what is criminal and what isn't? What is the difference between murder and manslaughter? Could you ever be guilty of stealing your own property? What defences are available to those accused of crime? The book features numerous case studies, from the infamous to the bizarre, and key questions for consideration throughout. Each chapter ends with lists of relevant cases, statutes, and suggestions for further reading, making this an ideal starting point for anyone interested in criminal law.
