While retaining the aerodynamic cleanliness which earned it its reputation as the most efficient airplane in its class, your new Bonanza has several improvements in its power plant and interior.

Although in most instances you will operate your Bonanza in the manner contemplated by the "Normal" category of Civil Air Regulations, Part 65, it was designed to meet the more stringent requirements of the "Utility" category, in which it actually is licensed. Thus, while it may be used for non-scheduled passenger and cargo operations for hire as a normal category airplane, it can be flown also in the utility category for pilot training, including limited acrobatic maneuvers except snap or inverted flight maneuvers and spins, which are prohibited.

On the following pages of this handbook, the important features and characteristics of your Bonanza are described, along with suggested operating procedures, specific requirements and limitations and the
