The Research Imagination Paul S. Gray, John B. Williamson, David A. Karp, John R. Dalphin, 2007-08-13 The idea that science is a blueprint for research and imagination gives research its life and purpose inspired this comprehensive explanation of research methodology The authors decades of experience have revealed that research is a craft requiring judgment and creativity not simply memorization and application of the rules of science Whether one is conducting an intimate one on one interview or a large scale examination of an entire society human imagination and scientific principles of inquiry go hand in hand To that end this book emphasizes scientific method but also acknowledges its critics It covers a wide variety of data collection techniques but presents them as reinforcing rather than competing with one another thus striking a balance between qualitative and quantitative methods It is designed for students and instructors who want a comprehensive treatment of a variety of research techniques with special emphasis on qualitative approaches

Essential First Steps to Data Analysis Carol S. Parke, 2012-12-13 Carol S Parke s Essential First Steps to Data Analysis Scenario Based Examples Using SPSS provides instruction and guidance on preparing quantitative data sets prior to answering a study s research questions Such preparation may involve data management and manipulation tasks data organization structural changes to the data files or conducting preliminary analysis Twelve research based scenarios are used to present the content Each scenario tells the story of a researcher who thoroughly examined their data and the decisions they made along the way The scenario begins with a description of the researcher s study and his her data file s then describes the issues the researcher must address explains why they are important shows how SPSS was used to address the issues and prepare data and shares the researcher s reflections and any additional decision making Finally each scenario ends with the researcher s written summary of the procedures and outcomes from the initial data preparation or analysis
