The 25 full papers included in this book were carefully reviewed and selected from 95 submissions. They were organized in topical sections as follows: Computing, E-learning, Electronics Technology Trends, Intelligent Systems, Machine Vision, and AT for Engineering Applications. **Comprehensive Materials Processing**, 2014-04-07 Comprehensive Materials Processing Thirteen Volume Set provides students and professionals with a one-stop resource consolidating and enhancing the literature of the materials processing and manufacturing universe. It provides authoritative analysis of all processes, technologies, and techniques for converting industrial materials from a raw state into finished parts or products. Assisting scientists and engineers in the selection, design, and use of materials, whether in the lab or in industry, it matches the adaptive complexity of emergent materials and processing technologies. Extensive traditional article-level academic discussion of core theories and applications is supplemented by applied case studies and advanced multimedia features. Coverage encompasses the general categories of solidification, powder deposition, and deformation processing and includes discussion on plant and tool design, analysis, and characterization of processing techniques, high-temperature studies, and the influence of process scale on component characteristics and behavior. Authored and reviewed by world-class academic and industrial specialists in each subject field, practical tools such as integrated case studies, user-defined process schemata, and multimedia modeling and functionality maximize research efficiency by collating the most important and established information in one place, with integrated applets linking to relevant outside sources. *Advances in Electronic Engineering, Communication and Management Vol.1* David Jin, Sally Lin, 2012-01-24 This volume presents the main results of the 2011 International Conference on Electronic Engineering, Communication and Management (EECM2011) held December 24-25, 2011, Beijing, China.
