Big Little House Small Houses Designed By Architects:

BIG little house Donna Kacmar,2015-01-09 What are the challenges architects face when designing dwelling spaces of a limited size And what can these projects tell us about architecture and architectural principles in general In BIG little house award winning architect Donna Kacmar introduces twenty real life examples of small houses Each project is under 1 000 square feet 100 square meters in size and brought together the designs reveal an attitude towards materiality light enclosure and accommodation which is unique to minimal dwellings While part of a trend to address growing concerns about minimising consumption and lack of affordable housing the book demonstrates that small dwellings are not always simply the result of budget constraints but constitute a deliberate design strategy in their own right Highly illustrated and in full colour throughout each example is based on interviews with the original architect and accompanied by detailed floor plans This ground breaking beautifully designed text offers practical guidance to any professional architect or homeowner interested in small scale projects

Big Little Hotel Donna Kacmar,2023-03-28 This book showcases small hotels all located in the United States designed by architects who use light and materials in interesting and intentional ways The designs also deliberately connect to their local history context or land in many cases all three Both the architecture and the operations harmonize with the place whether that is a bustling city small town or natural area Many are new buildings but some are adaptive reuse projects or renovations of historic properties extending the connectivity of the place into the future A condensed history of lodging helps to place the many typologies and histories of hospitality in relationship to world events and includes the many factors that influence hotel development such as business practices technology and even politics Hotels are influenced by larger trends and innovations in hospitality such as the emergence of a variety of creative possibilities for future travel A final chapter includes speculation on travel trends and encourages us all to wander more intentionally
