Bijdragen En Mededelingen Betreffende De Geschiedenis Der Nederlanden:

Bijdragen en mededelingen betreffende de geschiedenis der Nederlanden, 2004 **Bijdragen en Mededelingen betreffende de geschiedenis der Nederlanden**, 1976 The Low Countries As a Crossroads of Religious Beliefs Arie Jan Gelderblom, Jan L. De Jong, Marc Van Vaeck, 2004-01-01 Situated at the crossroads of important trade routes the bustling seaports of the Low Countries not only traded cargoes of grain and timber silk and spices woollen cloth and splendidly executed altarpieces but also manuscripts and books news information ideas and gossip Thus the Netherlands were touched by the evangelical Reformation movement at an early stage and played an increasingly important role as a crossroads for religious and philosophical ideas serving as an intermediary between different parts of the world The third volume of *Intersections* is devoted to this aspect of the intertraffic of the mind Thirteen authors from various disciplines address issues such as How open were the various religious groups to new points of view and how did they react to each other's opinion How did they get familiar with new insights and different attitudes and what was the role of trade and traffic in spreading them How important was the part played by the various church and civil authorities on the different levels of local regional and national government Contributors include Paul Arblaster Pieta van Beek Ralph Dekoninck Jeanine De Landtsheer Agnes Guiderdoni Brusle Jason Harris Christine Kooi Fred van Lieburg Guido Marnef Mia M Mochizuki Henk van Nierop Charles H Parker P J Schuffel and J J V M de Vet The Roots of Nationalism Lotte Jensen, 2025-10-01 This collection brings together scholars from a wide range of disciplines to offer perspectives on national identity formation in various European contexts between 1600 and 1815 Contributors challenge the dichotomy between modernists and traditionalists in nationalism studies through an emphasis on continuity rather than ruptures in the shaping of European nations in the period while also offering an overview of current debates in the field and case studies on a number of topics including literature historiography and cartography **Broadsheets** Andrew Pettegree, 2017-07-10 This volume offers an expansive survey of the role of single sheet publishing in the European print industry during the first two centuries after the invention of printing Drawing on new materials made available during the compilation of the Universal Short Title Catalogue the twenty contributors explore the extraordinary range of broadsheet publishing and its contribution to government pedagogy religious devotion and entertainment culture Long disregarded as ephemera or cheap print broadsheets emerge both as a crucial communication medium and an essential underpinning of the economics of the publishing industry History of the Low Countries J. C. H. Blom, E. Lamberts, 2006-06-01 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term

that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it as even more difficult to the region set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike **Hof en handel** E.B.
