Cuban neighborhoods of Miami Latino literature or literature written by Hispanic peoples of the United States is the written word of North America's vibrant Latino communities. Emerging from the fusion of Spanish North American and African cultures, it has always been part of the American mosaic. Written for students and general readers, this encyclopedia surveys the vast landscape of Latino literature from the colonial era to the present. Aiming to be as broad and inclusive as possible, the encyclopedia covers all of native North American Latino literature as well as that created by authors originating in virtually every country of Spanish America and Spain. Included are more than 700 alphabetically arranged entries written by roughly 60 expert contributors. While most of the entries are on writers such as Julia Alvarez, Sandra Cisneros, Lorna Dee Cervantes, Oscar Hijuelos, and Piri Thomas, others cover genres, ethnic and national literatures, movements, historical topics and events, themes, concepts, associations, and organizations, and publishers and magazines. Special attention is given to the cultural, political, social, and historical contexts in which Latino literature has developed. Entries cite works for further reading, and the encyclopedia closes with a selected general bibliography. The encyclopedia gives special attention to the social, cultural, historical, and political contexts of Latino literature, thus making it an ideal tool to help students use literature to learn about history and cultural diversity.

Writers Under Siege Lucy Popescu, Carole Seymour-Jones, 2007-09. Collected here are fifty contributions by writers who have paid dearly for the privilege of writing. Some have been tortured, some have been killed. The contributors come from more than twenty-five countries; many are well known in the English-speaking world; other contributors are less famous. In prose and poetry, in fiction and non-fiction, the pieces grouped into four sections reveal the personal consequences of war, conflict, terrorism, and authoritarianism.
