Animals and War
Confronting the Military Animal Industrial Complex is the first book to examine how nonhuman animals are used for war by military forces Each chapter delves deeply into modes of nonhuman animal exploitation as weapons test subjects and transportation and as casualties of war leading to homelessness starvation and death With leading scholar activists writing each chapter this is an important text in the fields of peace studies and critical animal studies This is a must read for anyone interested in ending war and fostering peace and justice Gender and Peace in Textbooks and Schooling Processes Gouri Srivastava,2012 **Educational Psychology** Angela M. O'Donnell,Eva Dobozy,Michael C. Nagel,Brendan Bartlett,Simone Smala,Catherine Wormald,Gregory Yates,2024-12-31
O'Donnell et al s Educational Psychology provides pre service teachers with a comprehensive framework for implementing effective teaching strategies aimed at enhancing students learning development and potential Through a meticulous examination of relevant psychological theories supplemented by contemporary local case studies and detailed analysis of lesson plans the text offers a nuanced understanding of educational psychology without resorting to specialised terminology Central to the text is a reflective practice framework equipping readers with the essential skills to bridge theoretical concepts with real world classroom scenarios Emphasising critical thinking and reflective practice the text underscores their significance in fostering sustained professional growth and success By integrating reflective practice into the fabric of the narrative utilising real classroom examples Educational Psychology cultivates a deep seated understanding of the practical applications of psychological principles in educational contexts
