The Four Books of Architecture Andrea Palladio, 1965-01-01 Andrea Palladio 1508 1580 was one of the most celebrated architects of the Renaissance so important that the term Palladian has been applied to a particular style of architecture which adheres to classical concepts The wide spread of Palladianism was due partly to the private and public buildings he constructed in Italy the designs of which were copied throughout Europe But of even greater consequence was his remarkable magnum opus I Quattro Libri dell Architettura translated into every major Western European language in the two centuries following its publication in 1570 it has been one of the most influential books in the history of architecture The Four Books of Architecture offers a compendium of Palladio s art and of the ancient Roman structures which inspired him The First Book is devoted to building materials and techniques and the five orders of architecture Tuscan Doric Ionic Corinthian and Composite Palladio indicates the characteristic features of each order and supplies illustrations of various architectural details The Second Book deals with private houses and mansions almost all of Palladio s own design Shown and described are many of his villas in and near Venice and Vicenza including the famous Villa Capra or The Rotunda the Thiene Palace and the Valmarana Palace Each plate gives a front view drawing of the building and the general floor plan The Third Book is concerned with streets bridges piazzas and basilicas most of which are of ancient Roman origin In the Fourth Book Palladio reproduces the designs of a number of ancient Roman temples Plates 51 to 60 are plans and architectural sketches of the Pantheon In all the text is illustrated by over 200 magnificently engraved plates showing edifices either of Palladio s own design or reconstructed in these drawings by him from classical ruins and contemporary accounts All the original plates are reproduced in this new one volume edition in full size and in clear sharp
