Re-anecdoted version Daniel Spoerri,Robert Filliou,Roland Topor,Emmett Williams,1966 **Architectures of Chance** Yeoryia Manolopoulou,2017-03-02 Architectural discourse and practice are dominated by a false dichotomy between design

and chance and governed by the belief that the architect's role is to defend against the indeterminate In *Architectures of Chance* Yeoryia Manolopoulou challenges this position arguing for the need to develop a more creative understanding of chance as aesthetic experience and critical method and as a design practice in its own right Examining the role of experimental chance across film psychoanalysis philosophy fine art and performance this is the first book to comprehensively discuss the idea of chance in architecture and bring a rich array of innovative practices of chance to the attention of architects Wide ranging and through a symbiotic interplay of drawing and text *Architectures of Chance* makes illuminating reading for those interested in the process and experience of design and the poetics and ethics of chance and space in the overlapping fields of architecture and the aleatoric arts

Material Imagination Natalie Adamson, Steven Harris, 2017-07-24 *Material Imagination* examines the interrelated concepts of matter materialism and materiality in postwar European art from 1946 1972 Provides a unique perspective on European art by prioritizing material dimensions over concept or context while also paying attention to theoretical and historical concerns Explores artists methods and materials in order to better understand the social and cultural environments in which their works of art were made Demonstrates how materials can be harnessed to affect the critical interpretation of artwork Brings together exceptional illustrations and new research in eight essays by art historians and scholars
