Anglican Daily Bible Guide 2015:

Investigating Political Tolerance at Conservative Protestant Colleges and Universities George Yancey, Laurel Shaler, Jerald H. Walz, 2019-02-21 This book aims to investigate the level of political tolerance at conservative Protestant colleges and universities Through innovative and methodologically sophisticated techniques the authors test the political openness of these institutions as a proxy for their willingness to accept opinions that fall outside of those held by their religious community The purpose of this study is to determine if there is an insular environment at conservative Protestant institutions beyond religious obligations or if these institutions are only restrictive as it concerns those theological commitments Drawing from five distinct sets of data the authors demonstrate that conservative Protestant institutions of higher education exhibit more political diversity and political tolerance than other institutions of higher education including elite Research 1 institutions

Practicing Life Together Paul Guter, 2025-09-02 You don't have to go it alone after college nor should you This book invites emerging adults to consider participating in a common rule that will guide their growth and cultivate genuine community A rule of life is like a trellis It's a standard offering guidance and encouraging growth in the right direction It's a way of living intentionally of committing to spiritual disciplines that are too important to leave up to our day to day whims Dietrich Bonhoeffer discerned that Christian community is not an ideal which we must realize it is rather a reality created by God in Christ in which we may participate Christians don't have to go it alone during the formative years after college it's possible to practice life together Guter introduces practices we can take up with others communal prayer weekly dinners studying together and Sabbath in the hope that these can become life shaping habits

The Future of the Professions Richard E. Susskind, Daniel Susskind, 2015 This book predicts the decline of today's professions and describes the people and systems that will replace them In an Internet society according to Richard Susskind and Daniel Susskind we will neither need nor want doctors teachers accountants architects the clergy consultants lawyers and many others to work as they did in the 20th century The Future of the Professions explains how increasingly capable systems from telepresence to artificial intelligence will bring fundamental change in the way that the practical expertise of specialists is made available in society The authors challenge the grand bargain the arrangement that grants various monopolies to today's professionals They argue that our current professions are antiquated opaque and no longer affordable and that the expertise of their best is enjoyed only by a few In their place they propose six new models for producing and distributing expertise in society The book raises important practical and moral questions In an era when machines can outperform human beings at most tasks what are the prospects for employment who should own and control online expertise and what tasks should be reserved exclusively for people Based on the authors in depth research of more than ten professions and illustrated by numerous examples from each this is the first book to assess and question the relevance of the professions in the 21st century

Growth and Decline in the Anglican Communion David Goodhew, 2016-12-15 The Anglican Communion is one of the largest Christian denominations in the world Growth and

Decline in the Anglican Communion is the first study of its dramatic growth and decline in the years since 1980. An international team of leading researchers based across five continents provides a global overview of Anglicanism alongside twelve detailed case studies. The case studies stretch from Singapore to England, Nigeria to the USA and mostly focus on non-western Anglicanism. This book is a critical resource for students and scholars seeking an understanding of the past, present and future of the Anglican Church. More broadly, the study offers insight into debates surrounding secularisation in the contemporary world.

Explorations in Twentieth-century Theology and Philosophy Ann Loades, 2023-04-11. Ann Loades has been instrumental in bringing forward for the attention of readers in later generations voices from the past, notably highlighting the work of pioneering women such as Evelyn Underhill and Dorothy L. Sayers, as well as advancing the study of better-known Anglican forebears C. S. Lewis and Austin Farrer, always with her own distinctive concerns. A key interpreter of the Anglican tradition and with a keen eye to ensure the full recognition of women, these studies by Ann Loades are essential reading in Anglican feminist and twentieth-century theology.

Twentieth Century Anglican Theologians Stephen Burns, Bryan Cones, James Tengatenga, 2020-12-21. A scholarly volume that reflects the rich diversity of Anglican theology. With contributions from an international panel of writers, *Twentieth Century Anglican Theologians* offers a wide-ranging view that presents a survey of over twenty diverse Anglican thinkers. The book explores well-known figures including William Temple, Austin Farrer, Donald MacKinnon and John A. T. Robinson. These theologians are set in a wider context alongside others from India, China, Australia, Ghana and elsewhere. Notably, the subjects include a number of women from Evelyn Underhill, the first woman to teach the clergy of the Church of England, to Esther Mombo, a major contemporary Anglican figure from Kenya. The book reflects the rich diversity of Anglicanism, suggesting the ongoing vitality of this religious tradition. This important book contains information on a number of prominent women Anglican thinkers. Includes contributions from experts from around the world. Presents material on both familiar figures and others that are unjustly little known. Written for students and teachers of Anglicanism, Anglican clergy and ecumenical colleagues.

Twentieth Century Anglican Theologians is the first book to reflect the diversity of the Anglican tradition by considering its global theological representatives.

Grounded in the Body, in Time and Place, in Scripture Jill Firth, Denise Cooper-Clarke, 2021-02-01. In my bibliographies, there are no women in the evangelical tradition and no Australian women scholars. This unique volume addresses this gap with eighteen biblically rich and academically rigorous chapters by established and emerging Australian women scholars in the evangelical tradition. The authors consider our relationship with the land and Indigenous peoples, neighborhood embodiment, disability, abortion, leadership, work, architecture, the media, Song of Songs and domestic violence, and Jeremiah and weaponized rape, and demonstrate recent methodologies such as a social identity reading of Exodus, sensory readings of Psalms and John's Gospel, and discipleship readings of Mary and Martha and the woman at the well. A contemporary Kriol psalm and stories of pioneering Australian women, theological students and teachers complete the volume.

Valuable for students and teachers across Bible theology ministry and practice subjects this book is an essential inclusion in any theological library
