Angry Nation Turkey Since 1989 Global History Of The Present:

Angry Nation Kerem Öktem, 2012-02-07 Since its re emergence as nation state in 1923 Turkey has often looked like an odd appendix to the West situated in the borderlands of Europe and the Middle East economically backward inward looking marred by political violence yet a staunch NATO ally it has been eyed with suspicion by both East and West The momentous changes in the regional and world order after 1989 have catapulted the country back to the world stage Ever since Turkey has turned into a major power broker and has developed into one the largest economies in the world In the process however the country has failed to solve its ethnic religious and historical conflicts peacefully At this historical turning point Kerem Oktem charts the contemporary history of Turkey exploring such key issues as the relationship between religion and the state Kurdish separatism Turkey s relationship with Israel and the ongoing controversy over Turkey s entry into the EU Readable but comprehensive this is the definitive book on the country s erratic transformation from a military dictatorship to a maturing if still troubled democracy

Turkey Since 1989 Kerem Öktem, 2011 Turkey has often looked like an odd appendix to the West economically backward inward looking marred by political violence yet a staunch NATO ally But since the momentous changes in the world order of 1989 Turkey has become a major power broker and one of the largest economies in the world albeit with ethnic and religious conflicts persisting Kerem ktem charts the contemporary history of Turkey exploring such key issues as the relationship between religion and the state Kurdish identity Turkey s relationship with Israel and the ongoing controversy over EU membership Readable but comprehensive Turkey since 1989 is the definitive book on the country s erratic transformation from a military dictatorship to a maturing if still troubled democracy

Algeria since 1989 James D. Le Sueur, 2013-04-04 Algeria s democratic experiment is seminal in post Cold War history The first Muslim nation to attempt the transition from an authoritarian system to democratic pluralism this North African country became a test case for reform in Africa the Arab world and beyond Yet when the country looked certain to become the world s first elected Islamic republic there was a military coup and the democratic process was brought sharply to a halt Islamists declared jihad on the state and hundreds of thousands of civilians were killed in the ensuing decade of state repression Le Sueur shows that Algeria is at the very heart of contemporary debates about Islam and secular democracy arguing that the stability of Algeria is crucial for the security of the wider Middle East Algeria Since 1989 is a lively and essential examination of how the fate of one country is entwined with much greater global issues

Making Russia and Turkey Great Again? Norman A. Graham, Folke Lindahl, Timur Kocaoglu, 2021-03-19 This study analyzes theoretically and empirically the background of the rise to power of Vladimir Putin in Russia and Recep Tayyip Erdogan in Turkey It situates this analysis in the contexts of the historical assessment of the fragility of liberal democracy and the persistence and growth of authoritarianism populism and dictatorship in many parts of the world The authors argue that the question whether Putin and Erdogan can make Russia and Turkey great again is hard to confirm personal ambition for power and wealth is certainly

key to an understanding of both rulers They each squandered opportunities to build from free and fair democratic electoral legitimacy and economic progress The prospect for restored national greatness depends on how they can handle the economic and political challenges they now face and will continue to face in the near future in a climate of global pandemic and economic recession Both rulers so far have succeeded in maintaining and increasing their powers and influence in their respective regions but neither has made real contributions to regional stability and order Chaos seems to be growing and the EU and the U S thus far seem unable to provide coherent responses to mitigate the impact of their adventurism and disruption

Turkey and the Politics of National Identity Shane Brennan, Marc Herzog, 2014-09-19 In the first decade of the twenty first century Turkey experienced an extraordinary set of transformations In 2001 in the midst of financial difficulties the country was under IMF stewardship yet it has recently emerged as one of the fastest growing economies in the world And on the international stage Turkey has managed to enhance its position from being a backseat NATO member and outside candidate for EU membership to being an influential regional power determining and developing its own individual foreign policy Shane Brennan and Marc Herzog explore how these and other changes have shaped the way people in Turkey perceive themselves and how the country's self image shapes its actions In the modern age the sovereign nation state still continues to be one of the basic building blocks of social or political identity The Turkish Republic founded in 1923 is a good example In weaving together and selecting certain elements of memory myth tradition and symbols the narratives of national identity in Turkey have been to a large extent socially constructed This volume offers analysis of the ways in which these narratives have been created maintained and negotiated and how current economic and political interests have been incorporated into the construction of a modern identity External forces such as those of cultural and economic globalisation have also been influential agents in this process As a result the space and opportunity for social and cultural expression has increasingly widened while alternative identities and life style choices at both the collective and individual levels have also become more visible Bearing this in mind this book examines issues such as those of alternative gender identity and sexual orientation formerly taboo issues Through different approaches engaging with politics economy society culture and history Turkey and the Politics of National Identity offers new perspectives on the transformation of national identity in this increasingly influential country in the Middle East

Impossible Peace Mark Levine, 2013-04-04 In 1993 luminaries from around the world signed the Oslo Accords a pledge to achieve lasting peace in the Holy Land on the lawn of the White House Yet things didn't turn out quite as planned With over 1 000 Israelis and close to four times that number of Palestinians killed since 2000 the Oslo process is now considered history Impossible Peace provides one of the first comprehensive analyses of that history Mark LeVine argues that Oslo was never going to bring peace or justice to Palestinians or Israelis He claims that the accords collapsed not because of a failure to live up to the agreements but precisely because of the terms of and ideologies underlying the agreements Today more than ever before it's crucial to understand why these failures happened and how they

will impact on future negotiations towards the final status agreement This fresh and honest account of the peace process in the Middle East shows how by learning from history it may be possible to avoid the errors that have long doomed peace in the region

National and State Identity in Turkey Toni Alaranta, 2015-06-09 National and State Identity in Turkey uses the concepts of national and state identity to examine Turkey s domestic and international politics and explain how the country s position in the international system has changed over the last ten years State identity is understood as the end result of a transformed national identity linking both domestic and international levels Toni Alaranta argues that there has been a radical reformulation of Turkey s national identity interest and positioning in the world since the Justice and Development Party AKP came to power in 2002 This transformed identity has helped the country renegotiate its status in the world He first examines the changing nature of Turkey s national identity before looking at the struggle between two extreme positions secularism and Islamism He then explains how the New Turkey discourse is part of an Islamic conservative ideology that targets the notion of the domestic other or minorities versus the Turkish Muslim self This discourse is transforming not only the notion of national identity but also Turkey s relations with the rest of the world and particularly with the European Union
