Aesthetics and the Revolutionary City James Clifford Kent, 2018-09-22 *Aesthetics and the Revolutionary City* engages in alternative ways of reading foreign visual representations of Havana through analysis of advertising images documentary films and photographic texts It explores key narratives relating to the projection of different Havana imaginaries and focuses on a range of themes including pre revolutionary Cuba the dream of revolution and the metaphor of the city frozen in time The book also synthesizes contemporary debates regarding the notion of Havana as a real and imagined city space and fleshes out its theoretical insights with a series of stand alone important case studies linked to the representation of the Cuban capital in the Western imaginary The interpretations in the book bring into focus a range of critical historical moments in Cuban history including the Cuban Revolution and the Special Period and consider the ways in which they have been projected in advertising documentary film and photography outside the island

Cuban Currency Esther Katheryn Whitfield, 2008-01-01 With the collapse of the Soviet Union in the 1990s during an economic crisis termed its special period in times of peace Cuba began to court the capitalist world for the first time since its 1959 revolution With the U S dollar instated as domestic currency the island seemed suddenly accessible to foreign consumers and their interest in its culture boomed *Cuban Currency* is the first book to address the effects on Cuban literature of the country s spectacular opening to foreign markets that marked the end of the twentieth century Based on interviews and archival research in Havana Esther Whitfield argues that writers have both challenged and profited from new transnational markets for their work with far reaching literary and ideological implications Whitfield examines money and cross cultural economic relations as they are inscribed in Cuban fiction Exploring the work of

Zo Valds Pedro Juan Gutierrez Antonio Jos Ponte and others she draws out writers engagements with the troublesome commodification of Cuban identity Confronting the tourist and publishing industries roles in the transformation of the Cuban revolution into commercial capital Whitfield identifies a body of fiction peculiarly attuned to the material and political challenges of the special period Esther Whitfield is assistant professor of comparative literature at Brown University

Cultural Antagonism and the Crisis of Reality in Latin America Horacio Legrás,2022-10-06 For most of the 20th century Latin American literature and art have contested political and cultural projects of homogenization of a manifestly diverse continent Cultural Antagonism and the Crisis of Reality in Twentieth Century Latin America explores literary and humanist experimentations and questions of gender race and ethnicity as well as the contradictions of capitalist development that belie such homogenization by reconfiguring the sense of the real in Latin America Covering four key geographical areas Mexico the Caribbean Central America and the Andes every chapter delves into a question that has been central to the humanities in the last 20 years Indigenous world views gender race neo liberalism and visual culture Legr s illuminates these issues with a thorough consideration of the theoretical questions inherent to how new identities disrupt the imaginary stability of social formations Minima Cuba Marta Hernández Salván,2015-01-01 Explores the ideological and emotional trauma created after the withering of the socialist utopia in Cuba M nima Cuba analyzes the reconfiguration of aesthetics and power during the Cuban postrevolutionary transition 1989 to 2005 the conclusion of the Special Period It explores the marginal cultural production on the island by the first generation of intellectuals born during the Revolution The author studies the work of postrevolutionary poets and essayists Antonio Jos Ponte Rolando S nchez Mej as and Iv n de la Nuez among others In their writing we find the exhaustion of the allegorical and melancholic rhetoric of the Cuban Revolution and the poetics of irony developed in the current biopolitical era The book will appeal to anyone interested in contemporary literary and cultural studies poetics and film studies in Latin America and the Caribbean Marta Hern ndez Salv n tackles head on the complex nature of philosophical tendencies within the poetics of Cuban cultural production in the last few decades to offer magnificent and precise readings of lesser known writings and films as well as profound renderings of canonical texts This is a remarkably rich book that will take multiple readings to give it justice Jacqueline Loss author of *Dreaming in Russian The Cuban Soviet Imaginary* *Popular Front Paris and the Poetics of Culture* Dudley Andrew,Steven Ungar,2005 The authors highlight the new symbolic forces put in play by technologies of the illustrated press and the sound film technologies that converged with efforts among writers artists and other intellectuals to respond to the crises of the decade
