Andean Lives Gregorio Condori Mamani, Asunta Quispe Huamán, 1996 **Andean Lives** Ricardo Valderrama Fernández, Carmen Escalante Gutiérrez, 2010-07-05 Gregorio Condori Mamani and Asunta Quispe Huamán were runakuna a Quechua word that means people and refers to the millions of indigenous inhabitants neglected reviled and silenced by the dominant society in Peru and other Andean countries For Gregorio and Asunta however that silence was broken when Peruvian anthropologists Ricardo Valderrama Fernández and Carmen Escalante Gutiérrez recorded their life stories The resulting Spanish Quechua narrative published in the mid 1970s and since translated into many languages has become a classic introduction to the lives and struggles of the people of the Andes Andean Lives is the first English translation of this important book Working directly from the Quechua Paul H Gelles and Gabriela Martínez Escobar have produced an English version that will be easily accessible to general readers and students while retaining the poetic intensity of the original Quechua It brings to vivid life the words of Gregorio and Asunta giving readers fascinating and sometimes troubling glimpses of life among Cuzco s urban poor with reflections on rural village life factory work haciendas indigenous religion and marriage and family relationships **Fat** Don Kulick, Anne Meneley, 2005-01-13 An eclectic and highly original examination of one of the most dynamic concepts and constructs in the world With more than one billion overweight adults in the world today obesity has become an epidemic But fat is not as straightforward or even as universally damned as one might think Enlisting thirteen anthropologists and a fat activist editors and anthropologists Don Kulick and Anne Meneley have produced an unconventional and unprecedented examination of fat in various cultural and social contexts In this anthology these writers argue that fat is neither a mere physical state nor an inert concept Instead it is a construct built by culture and judged in courts of public opinion courts whose laws vary from society to society From the anthropology of fat talk among teenage girls in Sweden to the veneration of Spam in Hawaii from fear of the fat sucking pishtaco vampire in the Andes to the underground allure of fat porn stars like Supersize Betsy this anthology provides fresh perspectives on a subject more complex than love handles and less easily understood than a number on a scale Fat proves that fat can be beautiful evil pornographic delicious shameful ugly or magical It all depends on who and where you are *The Cord Keepers* Frank L.

Salomon,2004-10-29 None of the world's lost writings have proven more perplexing than the mysterious script in which the Inka Empire kept its records. Ancient Andean peoples encoded knowledge in knotted cords of cotton or wool called *quipus*. In *The Cord Keepers*, the distinguished anthropologist Frank Salomon breaks new ground with a close ethnography of one Andean village where villagers surprisingly have conserved a set of these enigmatic cords to the present day. The *quipocamayos*, as the villagers call them, form a sacred patrimony. Keying his reading to the internal life of the ancient kin groups that own the *quipus*, Salomon suggests that the multicolored cords with their knots and lavishly woven ornaments did not mimic speech as most systems of writing do but instead were anchored in nonverbal codes. *The Cord Keepers* makes a compelling argument for a close intrinsic link between rituals and visual sign systems. It indicates that while Andean graphic representation may differ radically from familiar ideas of writing, it may not lie beyond the reach of scholarly interpretation. In 1994, Salomon witnessed the use of *quipus* as civic regalia on the heights of Tupicocha in Peru's central Huarochir region. By observing the rich ritual surrounding them, studying the village's written records from past centuries, and analyzing the *quipus* themselves, Salomon opens a fresh chapter in the quest for *quipu* decipherment. He draws on a decade's field research, early colonial records, and radiocarbon and fiber analysis. Challenging the prevailing idea that the use of *quipus* ended under early Spanish colonial rule, Salomon reveals that these beautiful objects served apparently as late as the early twentieth century to document households' contribution to their kin groups and these kin groups' contribution to their village. *The Cord Keepers* is a major contribution to Andean history and more broadly to understandings of writing and literacy.

Decolonizing Indigeneity Thomas Ward,2016-12-20 While there are differences between cultures in different places and times, colonial representations of indigenous peoples generally suggest they are not capable of literature nor are they worthy of being represented as nations. Colonial representations of indigenous people continue on into the independence era and can still be detected in our time. The thesis of this book is that there are various ways to decolonize the representation of Amerindian peoples. Each chapter has its own decolonial thesis which it then resolves. Chapter 1 proves that there is coloniality in contemporary scholarship and argues that word choices can be improved to decolonize the way we describe the first Americans. Chapter 2 argues that literature in Latin America begins before 1492 and shows the long arc of Mayan expression taking the *Popol Wuj* as a case study. Chapter 3 demonstrates how colonialist discourse is reinforced by a dualist rhetorical ploy of ignorance and arrogance in a Renaissance historical chronicle, Agustín de Zárate's *Historia del descubrimiento y conquista del Perú*. Chapter 4 shows how by inverting the Renaissance dualist configuration of civilization and barbarian, the Nahuatl Aztecs, who were formerly considered barbarian, can be civilized within Spanish norms. This is done by modeling the categories of civilization discussed at length by the Friar Bartolomé de las Casas as a template that can serve to evaluate Nahuatl civil society as encapsulated by the historiography of Fernando de Alva Ixtlilxochitl, a possibility that would have been available to Spaniards during that time. Chapter 5 maintains that the colonialities of the pre-Independence era

survive but that Criollo indigenous dialogue is capable of excavating their roots to extirpate them By comparing the discussions of the hacienda system by the Peruvian essayist Manuel Gonz lez Prada and by the Mayan Quich eye witness to history Rigoberta Mench this books shows that there is common ground between their viewpoints despite the different genres in which their work appears and despite the different countries and the eight decades that separated them suggesting a universality to the problem of the hacienda which can be dissected This book models five different decolonizing methods to extricate from the continuities of coloniality both indigenous writing and the representation of indigenous peoples by learned elites

Water and Power in Highland Peru Paul H. Gelles,2000 Cabanaconde a town of 5 000 people is located in the arid Andean highlands It is dominated by the foreboding Hualca Hualca mountain peak that is the source of this town s much needed water How the villagers obtain this water Paul Gelles writes is not a simple process the politics of irrigation in this area reflect a struggle for control of vital resources deeply rooted in the clash between local ritualized models of water distribution and the secular model put forth by the Peruvian state Water and Power in Highland Peru provides an insightful case study on the intense conflicts over water rights and a framework for studying ethnic conflict and the effects of development not only in Peru but in other areas as well Most of the inhabitants of Cabanaconde do not identify themselves with the dominant Spanish speaking culture found in Peru And the Peruvian state grounded in a racist post Colonial ethos challenges the village s long standing non Western framework for organizing water management Gelles demonstrates that Andean culture is dynamic and adaptive and it is a powerful source of ethnic identity even for those who leave the village to live elsewhere Indigenous rituals developed in this part of the world he states have become powerful tools of resistance against interference by local elites and the present day Peruvian state Most importantly the micropolitics of Cabanaconde provide a window into a struggle that is taking place around the world

The Routledge Handbook of Violence in Latin American Literature Pablo Baisotti,2022-02-28 This Handbook brings together essays from an impressive group of well established and emerging scholars from all around the world to show the many different types of violence that have plagued Latin America since the pre Colombian era and how each has been seen and characterized in literature and other cultural mediums ever since This ambitious collection analyzes texts from some of the region s most tumultuous time periods beginning with early violence that was predominately tribal and ideological in nature to colonial and decolonial violence between colonizers and the native population through to the political violence we have seen in the postmodern period marked by dictatorship guerrilla warfare neoliberalism as well as representations of violence caused by drug trafficking and migration The volume provides readers with literary examples from across the centuries showing not only how widespread the violence has been but crucially how it has shaped the region and evolved over time

Lines in the Water Benjamin S. Orlove,2002-06-13 Lines in the Water is both an unusually thoughtful book and a major contribution to the discussion on sustainable development James Ferguson author of Expectations of Modernity Ben Orlove knows the cultural communities

and landscapes of Lake Titicaca like the back of his hand but relates them to an entire body of literature about lake dwelling cultures His thematic approach to mountains water names and other elements of the Titicaca environs makes for rich reading and provocative debate This book takes the field of political ethno ecology to heights never before imagined by other practitioners Gary Nabhan author of Cultures of Habitat and Coming Home to Eat In this illuminating account of life around Lake Titicaca Ben Orlove draws on his curiosity and experience to offer the reader a rich sense of places voices sights and even pathways Combining descriptions of everyday practices and history political and economic forces and personal memories he provides an insightful ethnography an imaginative achievement and a fine read Stephen Gudeman author of The Anthropology of Economy A brave accessible and often lyrical account of Lake Titicaca and its people s successful struggle to manage their own resources Orlove wears his deep learning lightly a pleasure to read James C Scott Yale University
