The Hypothetical Mandarin : Sympathy, Modernity, and Chinese Pain Eric Hayot Associate Professor of Comparative Literature and Director of the Program in Asian Studies Pennsylvania State University, 2009-03-27 Why has the West for so long and in so many different ways expressed the idea that the Chinese have a special relationship to cruelty and to physical pain What can the history of that idea and its

expressions teach us about the politics of the West's contemporary relation to China And what does it tell us about the philosophy of modernity The Hypothetical Mandarin is in some sense a history of the Western imagination It is also a history of the interactions between Enlightenment philosophy of globalization of human rights and of the idea of the modern Beginning with Bianchon and Rastignac's discussion of whether the former would if he could obtain a European fortune by killing a Chinese mandarin in Balzac's Le Pere Goriot 1835 the book traces a series of literary and historical examples in which Chinese life and European sympathy seem to hang in one another's balance Hayots wide ranging discussion draws on accounts of torture on medical case studies travelers tales photographs plasticized corpses polemical broadsides watercolors and on oil paintings His analyses show that the historical connection between sympathy and humanity and indeed between sympathy and reality has tended to refract with a remarkable frequency through the lens called China and why the story of the West's Chinese pain goes to the heart of the relation between language and the body and the social experience of the modern human being Written in an ebullient prose The Hypothetical Mandarin demonstrates how the network that intertwines China sympathy and modernity continues to shape the economic and human experience

Sexuality, Disability, and Aging Jane Gallop, 2018-12-13 Drawing on her own experiences with late onset disability and its impact on her sex life along with her expertise as a cultural critic Jane Gallop explores how disability and aging work to undermine one's sense of self She challenges common conceptions that equate the decline of bodily potential and ability with a permanent and irretrievable
