Anglicisms In German German Edition:

The importance and influence of anglicisms in german language and audio-visual advertising Claudia Stehr, 2007-05-13 Seminar paper from the year 2002 in the subject English Language and Literature Studies Linguistics grade 1 3 Technical University of Braunschweig
Englisches Seminar course Language in Advertisement language English
abstract Language is not stable it is a communication system used by human beings As people and the environment they live in change and develop it is natural for language to change and to get influenced as well The amount of English words in the German language increased highly since 1945 and especially since advertising plays an important role in our society After the second World War the connection between Germany and the Western world got stronger and more intensive than it had been before Especially the areas media literature music and theatre but also politics sports and economy have very high influences on the growing use of English words in German language The German Academy of Language in Berlin says that no more than five per cent lexical amount of anglicisms are existing in the German language That indeed is not much but this does not propose anything about how often these words are used in the every day language There are no concrete guidelines or laws about the usage of Anglicisms and advertising agencies tend to plead that they only orientate on those English words which are already used by Germans This has to be doubted thinking that the words mail express logistics finance Stimulating Facial Freshener or Concentrated Line Smoother are not always understood directly nor by many Germans But the understanding of Anglicisms will not be the subject of this paper In my research paper I want to point out which influence the English language has on the language of advertising and how anglicisms are seen in our society I refer to the audio visual media TV advertisement and try to conclude about the importance and influence of Anglicisms in general In this paper the term Anglicism stands for English and American borrowings as well To supply evidence for my thesis I give and analyse a few examples of advertising spots from the German channel ARD and I also present my results of a questionnaire about Anglicisms in the German language which was filled in by 60 Germans At the beginning I want to go into the terms anglicism language of advertising and I point out the most important reasons for the usage of Anglicisms to give the reader a clear view in which way these terms have to be looked at and dealt with in this paper

Anglicisms in German Alexander Onysko, 2007 Offers a detailed account of the influence of English in German based on a large scale corpus analysis of the newsmagazine Der Spiegel This book presents a study that is structured into three parts each of which deals with fundamental questions and as of yet unsolved and disputed issues in the domain of anglicism research and language contact

English in Europe Manfred Görlach, 2002-05-23 English in Europe charts the English invasion of Europe since 1945 Sixteen distinguished European scholars report on the English words and phrases that have become integral parts of their languages Each describes the effect of English on the host language and shows how the process of incorporation often modifies pronunciation and spelling and frequently transforms meaning and use The languages surveyed are Icelandic Dutch
