Susan O'Hara,Robert Pritchard,Debi Pitta,2020 SOAR Teaching Frames for Literacy provides a unique approach to planning implementing and elevating instruction that drives improvement in teaching and learning SOAR focuses on the high impact teaching practices that research identifies as key to student learning In this book the authors present and unpack these practices within the context of Teaching Frames The frames provide a common language and a set of tools to foster informal self evaluation as well as teacher to teacher and coach to teacher collaboration All stages of implementation are illustrated with classroom examples from the authors 15 years of research and professional development throughout the United States School principals coaches and classroom teachers can use Literacy Classrooms That S O A R to support professional learning and growth across schools and districts The SOAR Teaching Frames have been an invaluable tool as we work to transform teaching practices in the Robla Elementary School District in Sacramento California Robla serves a community where families face the challenges of poverty every day and nearly half of our students speak a language other than English at home The SOAR Frameworks provided us with a tool to help students find their voice Classrooms are now filled with many points of view and more high level thinking Our entire school system is more coherent as these teaching practices have become part of the school day in all grades Ruben Reyes

superintendent Robla Elementary School District *Collecting for the Curriculum* Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book is the only one that offers explicit advice on collection development in curriculum collections for you. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the post-secondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards (CCSS). The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research-based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections, and instruction and reference, as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.
