## **A Poet Speaks Of Empire:**

**Poems of Nation, Anthems of Empire** Suvir Kaul, 2000 In *Poems of Nation Anthems of Empire* Suvir Kaul argues that the aggressive nationalism of James Thomson's ode *Rule Britannia* 1740 is the condition to which much English poetry of the late seventeenth and eighteenth centuries aspires. Poets as varied as Marvell, Waller and Dryden, Defoe, Addison, John Dyer and Edward Young or Goldsmith, Cowper, Hannah More and Anna Laetitia Barbauld all wrote poems deeply engaged with the British nation in the making. These poets and many others like them recognized that the nation and its values and institutions were being defined by the expansion of overseas trade, naval and military control, plantations and colonies. Their poems both embodied and were concerned about the culture and ideology of Great Britain itself, an idea of the nation that developed alongside the formation of a British Empire. Poems in this period thus flaunt various images of poetic inspiration that show poetry and culture following triumphantly where mercantile and military ships sail. Or sometimes more self-aggrandizingly for the poet they enact the process by which the Muses use their powers to inspire and show the way. Even at their most hesitant these poems were written as interventions into public discussion; their creativity is tied up with that desire to convince and persuade. Finally, as Kaul writes, it is their encyclopedic desire to incorporate new experiences, visions and values that makes these poems such fine guides to the world of poetry in the long years in which Great Britain was consolidated as an empire at home and abroad.

*National Poetry, Empires and War* David Aberbach, 2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice, freedom and the brotherhood of man but also at times burning with humiliation and grievance, hatred and lust for revenge driving human kind as the Austrian poet Grillparzer put it. From humanity via nationality to bestiality. *National Poetry, Empires and War* considers national poetry and its glorification of war from ancient to modern times in a series of historical, social and political perspectives. Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires, this book has much on pre-modern national poetry but focuses chiefly on post-1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron, Whitman, D'Annunzio, Yeats, Bialik and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism. Many national poets are the subject of countless critical and biographical studies but this book aims to give a panoramic view of national poetry as a whole. It will be of great interest to any scholars of nationalism, Jewish Studies, history, comparative literature and general cultural studies.

**The Quarrel Between Poetry and Philosophy** John Burns, Matthew Flamm, William Gahan, Stephanie Quinn, 2020-09-27 *The Quarrel Between Poetry and Philosophy: Perspectives Across the Humanities* is an interdisciplinary study of the abiding quarrel to which poet-philosopher Plato referred centuries ago in the *Republic*. The book presents eight chapters by four humanities scholars that historically contextualize and cross-interpret aspects of the quarrel in question. The authors share the view that although poets and philosophers continually quarrel, a harmonious union between the two groups is achievable in a manner promising

application to a variety of contemporary cultural political and aesthetic debates all of which have implications for the current status of the humanities

**The Epic of Juan Latino** Elizabeth Wright, 2016-08-04 In *The Epic of Juan Latino* Elizabeth R. Wright tells the story of Renaissance Europe's first black poet and his epic poem on the naval battle of Lepanto. *Carmen The Song of John of Austria* Piecing together the surviving evidence Wright traces Latino's life in Granada, Iberia's last Muslim metropolis from his early clandestine education as a slave in a noble household to his distinguished career as a schoolmaster at the University of Granada. When intensifying racial discrimination and the chaos of the Morisco Revolt threatened Latino's hard won status he set out to secure his position by publishing an epic poem in Latin verse the *Carmen* that would demonstrate his mastery of Europe's international literary language and celebrate his own African heritage. Through Latino's remarkable hitherto untold story Wright illuminates the racial and religious tensions of sixteenth century Spain and the position of black Africans within Spain's nascent empire and within the emerging African diaspora.

*European Empires from Conquest to Collapse, 1815-1960* V.G. Kiernan, 2024-04-09 New edition of a trail blazing history of imperial warfare. *European Empires from Conquest to Collapse* is a vivid anticolonial reckoning with the history of imperial warfare. Global in scope it deftly surveys the fighting forces and military engagements of the Great Powers from the British in India to the scramble for Africa. Victor Kiernan lays bare the doctrines and realities of colonial fighting dispelling official legends Europe often boasted that colonialism was civilised but the facts show it could be barbaric. Kiernan traces how guerrilla insurgency against colonial oppression developed into one of the most sophisticated branches of the art of war. With a foreword by Tariq Ali author of *Winston Churchill His Times His Crimes*

**A Companion to the Flavian Age of Imperial Rome** Andrew Zissos, 2015-12-31 *A Companion to the Flavian Age of Imperial Rome* provides a systematic and comprehensive examination of the political economic social and cultural nuances of the Flavian Age 69-96 CE. Includes contributions from over two dozen Classical Studies scholars organized into six thematic sections. Illustrates how economic social and cultural forces interacted to create a variety of social worlds within a composite Roman empire. Concludes with a series of appendices that provide detailed chronological and demographic information and an extensive glossary of terms. Examines the Flavian Age more broadly and inclusively than ever before incorporating coverage of often neglected groups such as women and non Romans within the Empire.

*German Empires and Decolonial Fantasies, 1492-1942* Patricia Anne Simpson, 2025-03-18 *German Empires and Decolonial Fantasies 1492-1942* investigates the ways German speaking Europe's cultural narratives reflect histories of entanglement with the colonial world. Drawing from an impressive range of sources Patricia Anne Simpson decodes the ironclad colonial logic that reproduces and inflects tropes of the conquistador scientific explorer and pioneers. She brings them into dialogue with a cast of historical agents who reimagine the cannibal the enslaved the conquered Indigenous interlocutors and the ungovernable. Throughout intersectional attributes of race gender ethnicity and religion reconfigure around shades of European whiteness. Individual chapters explore the Hohenzollern legacy in early

modernity debates about sovereignty and enslavement recruitment literature prose and fiction about migration and colonization in Africa and the Americas and colonial memoirs driven by recolonial fantasies after 1918 German Empires and Decolonial Fantasies advances efforts to decolonize the multiple disciplines that intersect the field of German studies including literary criticism history philosophy art history and anthropology German Empires and Decolonial Fantasies 1492 1942 draws from a wide range of sources from a seventeenth century Brandenburg fort on the coast of Ghana to a novella about a beleaguered colonial administrator in German East Africa to advance an interdisciplinary discourse at the nexus of colonial narratives and national imaginaries Through detailed case studies Simpson argues for the inclusion of voices that pushed back against imperialist expansion or intervention as well as those historical actors who disputed the supremacy of whiteness and the persuasive power of German centric national history
