Contemporary Art and Classical Myth Jennie Hirsh, 2017-07-05 Contemporary art is deeply engaged with the subject of classical myth Yet within the literature on contemporary art little has been said about this provocative relationship Composed of fourteen original essays Contemporary Art and Classical Myth addresses this scholarly gap exploring and in large part establishing the multifaceted intersection of contemporary art and classical myth Moving beyond the notion of art as illustration the essays assembled here adopt a range of methodological frameworks from iconography to deconstruction and do so across an impressive range of artists and objects Francis Al s Ghada Amer Wim Delvoye Luciano Fabro Joanna Frueh

Felix Gonzales Torres Duane Hanson Yayoi Kusama Roy Lichtenstein Kara Walker and an iconic photograph by Richard Drew subsequently entitled *The Falling Man* Arranged so as to highlight both thematic and structural affinities these essays manifest various aspects of the link between contemporary art and classical myth while offering novel insights into the artists and myths under consideration Some essays concentrate on single works as they relate to specific myths while others take a broader approach calling on myth as a means of grappling with dominant trends in contemporary art

Performing Homer: The Voyage of Ulysses from Epic to Opera Wendy Heller, Eleonora Stoppino, 2019-07-23 The epic poems the *Iliad* and the *Odyssey* attributed to Homer are among the oldest surviving works of literature derived from oral performance Deeply embedded in these works is the notion that they were intended to be heard there is something musical about Homer's use of language and a vivid quality to his images that transcends the written page to create a theatrical experience for the listener Indeed it is precisely the theatrical quality of the poems that would inspire later interpreters to cast the *Odyssey* and the *Iliad* in a host of other media novels plays poems paintings and even that most elaborate of all art forms opera exemplified by no less a work than Monteverdi's *Il ritorno di Ulisse in patria* In *Performing Homer: The Voyage of Ulysses from Epic to Opera* scholars in classics drama Italian literature art history and musicology explore the journey of Homer's *Odyssey* from ancient to modern times The book traces the reception of the *Odyssey* through the Italian humanist sources from Dante Petrarch and Ariosto to the treatment of the tale not only by Monteverdi but also such composers as Elizabeth Jacquet de la Guerre Gluck and Alessandro Scarlatti and the dramatic and poetic traditions thereafter by such modern writers as Derek Walcott and Margaret Atwood

love and emotional decision making *Alien Listening* Daniel K. L. Chua, Alexander Rehding, 2021-09-14 An examination of NASA's Golden Record that offers new perspectives and theories on how music can be analyzed, listened to, and thought about by aliens and humans alike. In 1977, NASA shot a mixtape into outer space. The Golden Record aboard the Voyager spacecrafts contained world music and sounds of Earth to represent humanity to any extraterrestrial civilizations. To date, the Golden Record is the only human-made object to have left the solar system. *Alien Listening* asks the big questions that the Golden Record raises: Can music live up to its reputation as the universal language in communications with the unknown? How do we fit all of human culture into a time capsule that will barrel through space for tens of thousands of years? And last but not least: Do aliens have ears? The stakes could hardly be greater. Around the extreme scenario of the Golden Record, Chua and Rehding develop a thought-provoking, philosophically heterodox and often humorous Intergalactic Music Theory of Everything: a string theory of communication, an object-oriented ontology of sound, and a Penelopean model woven together from strands of music and media theory. The significance of this exomusicology, like that of the Golden Record, ultimately takes us back to Earth and its denizens. By confronting the vast temporal and spatial distances, the Golden Record traverses the authors take listeners out of their comfort zone and offer new perspectives in which music can be analyzed, listened to, and thought about by aliens and humans alike.

Disguise and Recognition in the Odyssey Sheila Murnaghan, 2011-06-24 *Disguise and Recognition in the Odyssey* reveals the significance of the Odyssey's plot, in particular the many scenes of recognition that make up the hero's homecoming, and dramatize the cardinal values of Homeric society: an aristocratic culture organized around recognition in the broader senses of honor, privilege, status, and fame. Odysseus' identity is seen to be rooted in his family relations, geographical origins, control of property, participation in the social institutions of hospitality and marriage, past actions, and ongoing reputation. At the same time, Odysseus' dependence on the acknowledgement of others ensures attention to multiple viewpoints, which makes the Odyssey more than a simple celebration of one man's preeminence and accounts in part for the poem's vigorous afterlife. The theme of disguise, which relies on plausible lies, highlights the nature of belief and the power of falsehood and creates the mixture of realism and fantasy that gives the Odyssey its distinctive texture. The book contains a pioneering analysis of the role of Penelope and the questions of female agency and human limitation raised by the critical debate about when exactly she recognizes that Odysseus has come home.
