the same year his Transcendental and Paganini studies the signposts of his astonishing technical breakthrough Finally we see Liszt at the height of his artistic powers giving well over a thousand concerts across Europe and Russia during the years 1839-47 inventing the modern piano recital playing entire programs from memory performing the complete contemporary piano repertoire breaking down the barriers that had traditionally separated performing artists from their social superiors fostering the Romantic view of the artist as superior being because divinely gifted until his colossal career virtually impossible to sustain he gives his last paid performance at the age of thirty five Unparalleled in its completeness its soundness of documentation and in the quality of its writing The Virtuoso Years is the first volume of what will unquestionably be the most important biography of Franz Liszt in English or any other language
