Breathing With Luce Irigaray Bloomsbury Studies In Continental Philos:

Breathing with Luce Irigaray Lenart Skof, Emily A. Holmes, 2013-08-15 Contributors to this volume consider the implications of the Age of Breath a spiritual shift in human awareness to the needs of the other figured through breathing Awareness of the breath allows us to attend to our bodies and the bodies of others to animals nature other cultures oppressed minorities and the other of sexual difference As a way to connect body and spirit self and other nature and culture and East and West breathing emerges as the significant theological and philosophical gesture of our time Philosophy has too often cut off metaphysical thought from this living breathing world with its animal and female bodies just as religious traditions have repressed the breathing flesh in favour of calcified word The re introduction of breath into philosophy and theology draws our awareness back to the body to respect for the other and to nature making awareness of the breath essential for an embodied ethics of difference in our globalized ecological age These themes are addressed by an international team of scholars including Luce Irigaray

The Life of Breath in Literature, Culture and Medicine David Fuller, Corinne Saunders, Jane Macnaughton, 2021-10-01 This open access book studies breath and breathing in literature and culture and provides crucial insights into the history of medicine health and the emotions the foundations of beliefs concerning body spirit and world the connections between breath and creativity and the phenomenology of breath and breathlessness Contributions span the classical medieval early modern Romantic Victorian modern and contemporary periods drawing on medical writings philosophy theology and the visual arts as well as on literary historical and cultural studies The collection illustrates the complex significance and symbolic power of breath and breathlessness across time breath is written deeply into ideas of nature spirituality emotion creativity and being and is inextricable from notions of consciousness spirit inspiration voice feeling freedom and movement The volume also demonstrates the long standing connections between breath and place politics and aesthetics illuminating both contrasts and continuities

Thinking Life with Luce Irigaray Gail M. Schwab, 2020-04-01 Featuring a highly accessible essay from Irigaray herself this volume explores her philosophy of life and living Life thinking an important contemporary trend in philosophy and in women s and gender studies stands in contrast to philosophy s traditional grounding in death exemplified in the work of philosophers such as Socrates Plato and Schopenhauer The contributors to Thinking Life with Luce Irigaray consider Irigaray s criticisms of the traditional Western philosophy of death including its either/or dualisms and binary logic as well as some of Irigaray s solutions for cultivating life The book is comprehensive in its analyses of Irigaray s relationship to classical and contemporary philosophers writers and artists and produces extremely fruitful intersections between Irigaray and figures as diverse as Homer and Plato Alexis Wright the First Nations novelist of Australia and twentieth century French philosophers like Sartre Badiou Deleuze and Guattari It also develops Irigaray s relationship to the arts with essays on theater poetry architecture sculpture and film

A New Philosophy of Social Conflict Leonard C. Hawes, 2015-04-23 A New Philosophy of Social Conflict joins in the

contemporary conflict resolution and transitional justice debates by contributing a Deleuze Guattarian reading of the post genocide justice and reconciliation experiment in Rwanda the Gacaca courts In doing so Hawes addresses two significant problems for which the work of Deleuze and Guattari provides invaluable insight how to live ethically with the consequences of conflict and trauma and how to negotiate the chaos of living through trauma in ways that create self organizing discursive processes for resolving and reconciling these ontological dilemmas in life affirming ways Hawes draws on Deleuze Guattarian thinking to create new concepts that enable us to think more productively and to live more ethically in a world increasingly characterized by sociocultural trauma and conflict and to imagine alternative ways of resolving and reconciling trauma and conflict

Philosophy, Sophistry, Antiphilosophy Matthew R. McLennan, 2015-10-22 Alain Badiou's work in philosophy though daunting has gained a receptive and steadily growing Anglophone readership What is not well known is the extent to which Badiou's positions vis vis ontology ethics politics and the very meaning of philosophy were hammered out in dispute with the late Jean Fran ois Lyotard Matthew R McLennan's *Philosophy Sophistry Antiphilosophy* is the first work to pose the question of the relation between Lyotard and Badiou and in so doing constitutes a significant intervention in the field of contemporary European philosophy by revisiting one of its most influential and controversial forefathers Badiou himself has underscored the importance of Lyotard for his own project might the recent resurgence of interest in Lyotard be tied in some way to Badiou's comments Or deeper still might not Badiou's philosophical Platonism beg an encounter with philosophy's other the figure of the sophist that Lyotard played so often and so ably Posing pertinent questions and opening new discursive channels in the literature on these two major figures this book is of interest to those studying philosophy rhetoric literary theory cultural and media studies

Foucault and Nietzsche Joseph Westfall, Alan Rosenberg, 2018-02-22 Foucault's intellectual indebtedness to Nietzsche is apparent in his writing yet the precise nature extent and nuances of that debt are seldom explored Foucault himself seems sometimes to claim that his approach is essentially Nietzschean and sometimes to insist that he amounts to a radical break with Nietzsche This volume is the first of its kind presenting the relationship between these two thinkers on elements of contemporary culture that they shared interests in including the nature of life in the modern world philosophy as a way of life and the ways in which we ought to read and write about other philosophers The contributing authors are leading figures in Foucault and Nietzsche studies and their contributions reflect the diversity of approaches possible in coming to terms with the Foucault Nietzsche relationship Specific points of comparison include Foucault and Nietzsche's differing understandings of the Death of God art and aesthetics power writing and authorship politics and society the history of ideas genealogy and archaeology and the evolution of knowledge

Deleuze and Becoming Samantha Bankston, 2017-11-16 Deleuze's concept of becoming provides the key to his notoriously complex metaphysics yet it has not been systematized until now Bankston tracks the concept of becoming and its underlying temporal processes across Deleuze's writings arguing that expressions of becoming's appear in two modes of temporality an

appropriation of Nietzsche's eternal return the becoming of the event and Bergsonian duration the becoming of sensation Overturning the criticisms launched by Žižek and Badiou with conceptual encounters between Bergson Nietzsche Leibniz Borges Klossowski and Proust the newly charted concept of double becoming provides a roadmap to the totality of Deleuze's philosophy Bankston systematizes Deleuze's multi-mirrored universe where form and content infinitely refract in a vital kaleidoscope of becoming

Early Phenomenology Brian Harding, Michael R. Kelly, 2016-06-30 Taking the term phenomenologist in a fairly broad sense Early Phenomenology focuses on those early exponents of the intellectual discipline such as Buber Ortega and Scheler rather than those thinkers that would later eclipse them indeed the volume precisely means to bring into question what it means to be a phenomenologist a category that becomes increasingly more fluid the more we distance ourselves from the gravitational pull of philosophical giants Husserl and Heidegger In focusing on early phenomenology this volume seeks to examine the movement before orthodoxies solidified More than merely adding to the story of phenomenology by looking closer at thinkers without the same fame as Husserl or Heidegger and the representatives of their legacy the essays relate to one of the earlier thinkers with figures that are either more contemporary or more widely read or both Beyond merely filling in the historical record and reviving names the chapters of this book will also give contemporary readers reasons to take these figures seriously as phenomenologists radically reordering of our understanding of the lineage of this major philosophical movement

Hegel and Resistance Bart Zantvoort, Rebecca Comay, 2017-12-28 The concept of resistance has always been central to the reception of Hegel's philosophy The prevalent image of Hegel's system which continues to influence the scholarship to this day is that of an absolutist monist metaphysics which overcomes all resistance subsuming or assimilating all differences into a single organic Whole For that reason the reception of Hegel has always been marked by the question of how to resist Hegel how to think that which remains outside of or other to the totalizing system of dialectics In recent years the work of scholars such as Catherine Malabou Slavoj Žižek Rebecca Comay and Frank Ruda has brought considerable nuance to this debate A new reading of Hegel has emerged which challenges the idea that there is no place for difference otherness or resistance in Hegel both by refusing to reduce Hegel's complex philosophy to a straightforward systematic narrative and by highlighting particular moments within Hegel's philosophy which seem to counteract the traditional understanding of dialectics This book brings together established and new voices in this field in order to show that the notion of resistance is central to this revaluation of Hegel

Egalitarian Moments: From Descartes to Rancière Devin Zane Shaw, 2015-11-05 Jacques Rancière's work has challenged many of the assumptions of contemporary continental philosophy by placing equality at the forefront of emancipatory political thought and aesthetics Drawing on the claim that egalitarian politics persistently appropriates elements from political philosophy to engage new forms of dissensus Devin Zane Shaw argues that Rancière's work also provides an opportunity to reconsider modern philosophy and aesthetics in light of the question of equality In Part I Shaw examines Rancière's philosophical debts to the

good sense of Cartesian egalitarianism and the existentialist critique of identity In Part II he outlines Rancière's critical analyses of Walter Benjamin and Clement Greenberg and offers a reinterpretation of Rancière's debate with Alain Badiou in light of the philosophical differences between Schiller and Schelling From engaging debates about political subjectivity from Descartes to Sartre to delineating the egalitarian stakes in aesthetics and the philosophy of art from Schiller to Badiou this book presents a concise tour through a series of egalitarian moments found within the histories of modern philosophy and aesthetics
