BASC – 2

- ❑ 4-point response scale
- ❑ By hand or computer (BASC Assist and BASC Assist Plus)
- ❑ Scores are based on national norms and can be separated by age grouping, gender, or clinical status
- ❑ Cut scores are customizable based on a desired T score or number of children in a specific outcome category.

ASEBA

- ❑ Separate scoring profiles for boys and girls ages 6 to 11 and 12 to 18
- ❑ By hand or computer
- ❑ 0 = not true; 1 = somewhat or sometimes true; or 2 = very true or often true
- ❑ T scores and percentile rank scores are compared to the normative sample to determine if a child's score differs from what is considered typical of a child that age and gender.

Clinical Assessment of Child and Adolescent Personality and Behavior Paul J. Frick, Christopher T. Barry, Randy W. Kamphaus, 2020-06-11 The fourth edition of this textbook offers a scientific and practical context within which to understand and conduct clinical assessments of children's and adolescents' personality and behavior. The new edition ensures that the content is relevant to diagnostic criteria for major forms of child and adolescent psychopathology in the 5th edition of the Diagnostic and Statistical Manual of Mental Disorders DSM-5. It provides updated information on specific tests and discusses advances in research that have occurred since the last edition that are relevant for assessing the most common forms of psychopathology shown by children and adolescents. The volume is unique in providing both the scientific and ethical basis to guide psychological testing as well as providing practical advice for using specific tests and assessing specific forms of psychopathology. This new edition highlights how current trends in psychological classification such as the DSM-5 and the Research Domain Criteria should influence the clinical assessment of children and adolescents. Provides updates to professional standards that should guide test users. Discusses practical considerations in planning and conducting clinical assessments. Evaluates the most recent editions of common tests used in the clinical assessment of child and adolescent personality and behavior. Provides an overview of how to screen for early signs of emotional and behavioral risk for mental problems in children and adolescents. Discusses practical methods for integrating assessment information collecting as part of a clinical assessment. Uses current research to guide clinical assessments of children with Attention deficit Hyperactivity Disorder, conduct problems, depression, anxiety, and autism spectrum disorder. *Clinical Assessment of Child and Adolescent Personality and Behavior* is a valuable updated resource for graduate students as well as veteran and beginning clinicians across disciplines including school clinical child developmental and educational psychology, psychiatry, counseling, and social work as well as related disciplines that provide mental health and educational services to children and adolescents.

Encyclopedia of Special Education Cecil R. Reynolds, Elaine Fletcher-Janzen, 2007-01-02 Offers a thoroughly revised comprehensive A to Z compilation of authoritative information on the education of those with special needs. *Behavioral, Social, and Emotional Assessment of Children and Adolescents* Sara Whitcomb, 2013-05-07 Generally recognized as the standard work in its field, *Behavioral, Social, and Emotional Assessment of Children and Adolescents* provides a comprehensive foundation and guide for conducting conceptually sound, culturally responsive, and ecologically oriented assessments of student social and emotional behavior. It is aimed at graduate students, practitioners, and researchers in the fields of school psychology, child clinical psychology, and special education but will also be of interest to those in related disciplines such as counseling psychology, child psychiatry, and social work. Keeping intact many of the same premises and pedagogy of the previous editions, this revised and updated fourth edition has been reorganized to emphasize culturally responsive, reflective practice with added content including updated assessment tools and strategies to be used within a Response to Intervention.

RtI framework In addition to updating all chapters to reflect current research and data authors Sara Whitcomb and Kenneth Merrell move away from a more narrow view of social skills to reflect an expanded notion of strengths based assessment which includes such traits as coping skills resilience problem solving ability emotional knowledge and empathy Throughout they strive to increase professional standards in the practice of psychological and educational assessment of children and adolescents providing a solid evidence based foundation for assessment
